

School of Social Work

The School of Social Work is committed to a politicized social work practice grounded in a structural approach. This fosters greater awareness of the broad and intersecting injustices caused by oppressive structures while preparing students to be effective and ethical practitioners.

Our goal is that graduates are able to integrate vision, knowledge, and skills for practice that may lead to social transformation toward a more equitable and just society. While seeking to develop and teach a politicized social work practice, we strive to remain open to new ideas, analyses, and realities that challenge and inform our ongoing efforts.

The School of Social Work, which offers the only English master and bachelor of social work degrees in New Brunswick, began as a Bachelor of Arts in Applied Social Science in 1976, followed by the addition of a Certificate of Social Work, and a Bachelor of Social Work in 1980.

In 1983, the Union of New Brunswick Indians and New Brunswick Indian Committee requested development of a social work program for Indigenous students. This began with a Certificate in Social Work and has evolved to the Mi'kmaq and Maliseet Bachelor of Social Work program which provides accredited professional social work education to Indigenous students in a flexible and culturally relevant framework.

The Master of Social Work Program, which focuses on advanced clinical practice, was launched in 2021. It provides students with advanced theory and practice skills in professional leadership, social work supervision, and direct practice skills development.

A. Bachelor of Social Work Program

The Bachelor of Social Work four-year degree provides graduates with the theoretical knowledge and skills they need to work with individuals, families and communities. A balance of general liberal arts education in the first two years, followed by a professional social work education in the final two years, through both courses and practical field placements, provides the knowledge and skills for a generalist social work practice.

Students apply to the program after their second year of a Bachelor of Arts having earned 60 credit hours. The courses in the liberal arts are significantly strengthened in the subsequent two years by a series of core courses essential to a social work practice; critical social work theory, anti-oppressive social work practice, group work, mental health issues, addiction, child welfare, trauma, and family law. The field practicums supplement these courses, with one focusing on social action at the community/organization level, and a second in a clinical setting with local social agencies, supported by experienced field instructors. In addition, a research methods course helps students keep pace with the changing landscape of social work scholarship and prepares them for professional practice.

Practicums

The Bachelor of Social Work includes a minimum of 700 hours of field practice, as required

by the Canadian Association for Social Work Education Standards for Accreditation. The first practicum commences during the Winter Semester of the third year (250 hours). The second practicum occurs during the Winter Semester of the fourth year (450 hours) in a block format, four days a week.
