Our Mission

Preamble

St. Thomas University is a small, Catholic institution whose central liberal arts program is complemented by professional programs in education and social work. St. Thomas University takes pride in and seeks to nurture its Catholic and humanistic heritage, its concern for social issues, its interaction with the community beyond the campus and its sensitivity to the needs of individual students. A strong sense of community unites its alumni, students, staff, faculty, and friends.

Mission Statement

We are a liberal arts institution whose roots are in the faith and tradition of the Roman Catholic Church. We continue under its sponsorship. We provide an atmosphere hospitable to faith, in which the academic study of the Roman Catholic tradition and the experience of Christian life may be pursued with respect and freedom and where non-Catholic faculty and students are recognized and supported as full and equal participants in the University community.

We are a university primarily concerned with people, ideas, and values. We are an institution with a social conscience. We are united in the belief that women and men of divergent backgrounds and abilities should have an opportunity to learn and practice critical thought and to realize their intellectual potential in an academic setting that is both responsive and stimulating.

The liberal arts, and the principles of liberal education, stand at the core of St. Thomas University. Finding new and more effective ways of studying the liberal arts is a priority. We contend that one of the roles of the University is to help people put ideas and values into action. In that belief, we offer professional programs which reflect the knowledge, methods, and values of the liberal arts disciplines.

We take pride in welcoming students who show potential, as well as those of proven ability; those who pursue a traditional academic career and those who do not; those who study part time as well as those who study full time. We want our students to succeed, to grow in self-esteem, to experience the joy of intellectual accomplishment. We provide an educational environment in which faculty are accessible, flexible, and committed to excellence in teaching. We encourage our faculty to examine teaching and learning in a critical manner. We foster scholarship and research because we recognize their role in the advancement of knowledge, and in sustaining the quality of teaching and the intellectual life of the University.

We believe that learning engages the whole person; we seek to provide an environment conducive to enriching student life. In this regard, pastoral care is of special concern. Our shared campus with the University of New Brunswick provides our students and faculty with the best of two worlds—the advantages of a small, intimate, academic community and the amenities of a much larger institution. We take full advantage of this arrangement, upholding our obligations under the affiliation agreement we have with our neighbouring institution, and seeking new avenues of cooperation and partnership beneficial to both communities.

We strive to preserve the tradition of academic freedom. We seek to provide a learning and working atmosphere that is free of discrimination, injustice, and violence, and that is responsive, understanding, open, and fair.

We see ourselves as an important community resource. We welcome the opportunity to share our facilities, talents, and expertise with others; to form partnerships with groups and organizations—whether they are next door or around the world—whose mission, goals, and objectives are in harmony with our own; and to provide cultural, religious, artistic, athletic, and social programming that enhances the quality of life of our city and our province.

The Goals of a Liberal Education at St. Thomas University

Liberal education is an inquiry into what it means to be human — a quest to understand the rational, spiritual, and aesthetic dimensions of human life. Because St. Thomas University is devoted to open-minded inquiry, it encourages a variety of disciplinary approaches to this quest.

Liberal education is more important than ever. In a culture where image and icon often short-circuit reason, liberal education seeks to free people from thoughtless adherence to the authoritative opinions of their time and place. In an age where information is prepared for massive and quick consumption, liberal education seeks to strengthen the capacity to raise fundamental questions. In an era characterized by enormous pressures to conform, liberal education seeks to inspire the imagination and engage the spirit.

At St. Thomas University, the goals of a liberal education are pursued within a humanistic and Catholic tradition. The University aims to create an academic, cultural, and social environment in which each student can develop:

1. An independent, inquiring mind.

A liberal education teaches people how to think; it does not dictate what they ought to think. It encourages, through independent reasoning and fair-minded inquiry, the recognition of unstated assumptions, the thoughtful reconsideration of received ideas, and the challenging of simplistic generalizations. The liberal arts thus explore controversial and competing ideas in ways that demand informed, careful, and considered judgment.

2. A breadth of knowledge and depth of understanding.

Through both general and specialized studies, a liberal education seeks to stimulate an understanding of the content, methods, and theoretical approaches of different disciplines, as well as a capacity to integrate knowledge across disciplinary boundaries.

3. An awareness of the perennial questions and new challenges confronting humanity.

A liberal education encourages appreciation of the variety and complexity of circumstances and human responses to them in different times and places.

4. A depth and consistency of moral judgment.

A liberal education emphasizes the seriousness and difficulty of moral and ethical issues, and the necessity of examining them thoroughly.

5. An ability to write and speak with clarity and precision.

A liberal education recognizes the connection between clear thinking and effective communication. It fosters the ability to develop sustained, well-reasoned, and clearly presented arguments.

6. A capacity and life long desire for learning.

Because liberal education is a process of questioning, rather than a set of answers, it is by definition a life long project. Liberal education seeks to create in students a love of learning and the capacity to continue their personal and intellectual development long after they have left St. Thomas University.

The Value of a Liberal Education

When considering the value of any type of education, many people wonder first of all whether it will lead to a satisfying, well-paying job. In this respect, there is no doubt — a liberal education is an excellent personal investment. Although specialists and technically trained workers will always be needed, employers are saying emphatically that they need well-educated generalists who are flexible, creative, curious, and capable of seeing the broader picture. Employers in business, industry, government, health care, and other sectors are looking for people who have learned how to learn, people with excellent communication and teamwork skills — in brief, they are looking for well-rounded, liberally educated people. The bottom line? Studies show that university education is an excellent investment in general, and that liberal arts graduates in particular have lifetime earnings as high or higher than graduates of other programs.

From a broader perspective, liberal education is valuable because a democratic society needs citizens who can think for themselves and can participate in the improvement of that society. We need to be able to understand, in a critical and independent way, the issues and structures in which we are immersed. Liberal education contributes to this understanding by making us aware of the historical and cultural contexts of modern life. Students educated in the liberal arts recognize the issues that confront us, as citizens of a democracy, here and now.

From an individual perspective, liberal education is valuable because it enables personal growth and the cultivation of our human individuality. There is, after all, more to life than a career, no matter how satisfying that career might be. As individuals, we also need the intellectual and emotional nourishment provided by the creative arts — theatre, music, literature, art. Liberal education aims to help us understand and appreciate cultures and culture in the widest sense. As such it contributes to the development of well-rounded individuals with a depth of human understanding and a high degree of personal satisfaction. Employers, in turn, put a high value on well-rounded individuals because they are the ones who make the best informed, the most “human” judgments. The value of a liberal education, in short, is that it enhances your prosperity, your society, and your humanity.

Statement of Mutual Academic Expectations of Instructors and Students

In the interest of promoting an optimal learning environment, the St. Thomas University Senate has adopted this statement of the mutual academic expectations of students and instructors. The statement articulates what we agree to be the essential elements of a strong academic culture. It thereby provides both instructors and students with an ideal of what each should be able to expect from the other in their shared quest for a successful educational experience. This document is intended to serve as a statement of principles only. For specific regulations, consult Section Seven of the Calendar.

Professionalism

In a sound academic culture, both instructors and students approach their roles in a professional manner. They are familiar with and respect the policies and regulations of their courses and of the University as a whole, and strive to uphold the ideals of the Mission Statement and to realize the Goals of a Liberal Education.

Instructors are both academically competent and reasonably current in their subject matter, and are committed to applying themselves to their teaching tasks to the best of their ability. Students show the same commitment and responsibility to their studies as they would to their employment. The normal expectation is that students do at least two hours of work outside the classroom for each hour of class time. Students are committed to applying themselves to their learning tasks to the best of their ability.

Assignments and Evaluation

As professionals both instructors and students take seriously their mutual responsibilities regarding assignments and evaluation. Instructors ensure that the value of each assignment, test, or examination is clearly established in the course outline and do not alter those values without the consent of the class. They strive to ensure that they grade students in accordance with clearly stated criteria and in accordance with prevailing standards. They return student work in a timely fashion and provide adequate comments to enable students to understand the reason for the grade. Finally, instructors show flexibility in the application of deadlines when students have legitimate reasons for special consideration.

Students accept the primacy of a scheduled test or examination over travel plans or work schedules. They respect deadlines for submission of assignments, keep backup copies, and take care to deliver assignments only to appropriate places. Students make use of the instructor's comments in order to improve their performance in the future.

Conduct in the Classroom

St. Thomas University is dedicated to free and reasoned discussion, to critical debate, and to the exploration of diverse and competing ideas.

Students can expect to be encouraged to participate actively in classes, to enter into intellectual debate, and to have their contributions treated respectfully by their instructors. Instructors can expect students to attend class regularly and to come prepared to contribute effectively to the work of the class.

Students can expect their instructors to terminate verbal and other behaviour in the classroom that is not respectful of others. Instructors can expect students to cooperate in the maintenance of a climate that is free from personal intimidation, insult, and harassment.

For further information on course regulations, evaluating and grading, academic standing, academic misconduct, withdrawal procedures, and appeal procedures, please see Section Five: Regulations.

St. Thomas University's History

The origin of St. Thomas University dates back to 1910. At that time, the Most Reverend Thomas F. Barry, Bishop of Chatham, invited the Basilian Fathers of Toronto to assume charge of an institution in Chatham, New Brunswick, providing education for boys at the secondary and junior college levels. The institution was called St. Thomas College.

The Basilian Fathers remained at St. Thomas until 1923. That year the school was placed under the direction of the clergy of the Diocese of Chatham. In 1938, the Diocese of Chatham became the Diocese of Bathurst. In 1959, a section of Northumberland County, including within its territorial limits St. Thomas College, was transferred from the Diocese of Bathurst to the Diocese of Saint John.

Degree Granting Institution

From 1910 until 1934, St. Thomas College retained its original status as a High School and Junior College. It became a degree-granting institution upon receipt of a University Charter on March 9, 1934, at which time the provincial legislature of New Brunswick enacted the following:

"St. Thomas College shall be held, and taken, and is hereby declared to be a University with all and every power of such an institution, and the Board of Governors thereof shall have full power and authority to confer upon properly qualified persons the degree of Bachelor, Master, and Doctor in the several arts and faculties in the manner and upon the conditions which may be ordered by the Board of Governors."

St. Thomas University

In 1960, an act of the provincial legislature of New Brunswick changed the name of St. Thomas College to St. Thomas University. The following year, the high school courses were eliminated from the curriculum.

In 1962, a royal commission on higher education in New Brunswick recommended that St. Thomas University enter into a federation agreement with the University of New Brunswick and relocate on the campus of the latter institution. In 1963, an agreement was drawn up between St. Thomas University and the University of New Brunswick. According to this agreement, St. Thomas University continues to grant its own degrees in arts and education. The agreement further provides that St. Thomas University make regulations governing student admission to courses leading to such degrees and retain control of the content and administration of its curriculum. To avoid duplication, the two universities avail themselves of various services and facilities in common; namely, the library, the bookstore, and some athletic facilities. Moreover, students from each campus benefit from the cultural activities of the other.

Growth and Development

On September 2, 1964, St. Thomas University opened its new premises in Fredericton. Since its relocation, the University has undergone significant growth in the number of students, faculty, and facilities. From fewer than 500 students, 22 faculty and 3 buildings at that time, St. Thomas has grown to more than 2400 students, 121 full-time faculty and 12 buildings.

Expansion was well planned and St. Thomas is now nationally recognized for the beauty of its campus and the quality of its learning environment. In 1964, the institution consisted of the Administration Building (now George Martin Hall), Harrington Hall (residence), and Holy Cross House (classrooms, faculty offices and residence). Vanier Hall (residence) was added in 1965; Edmund Casey Hall (classrooms and faculty offices) in 1969; a new wing to Edmund Casey Hall in 1985; Sir James Dunn Hall (student area, classrooms) in 1994, and the J.B. O'Keefe Fitness Centre and the Forest Hill Residence in 1999.

The new century saw the opening of the Welcome Centre (Admissions) and Brian Mulroney Hall (classrooms, faculty offices, and student areas) in 2001; Chatham Hall was added to the Forest Hill Residence in 2003. During that year, St. Thomas University also began leasing classroom space in a CBC broadcast facility for use by its journalism program, a unique and beneficial arrangement. Margaret Norrie McCain Hall, an academic building consisting of a large auditorium, a two-storey student study hall, and numerous classrooms and seminar rooms, opened for students in January 2007.

Endowed Chairs

The Pope John XXIII Chair of Studies in Catholic Theology

The decision to establish this Chair was taken to mark three events of historical significance that took place in 1984: the bicentennial of the province of New Brunswick, the fiftieth anniversary of the granting of St. Thomas University's charter, and the visit of His Holiness Pope John Paul II to New Brunswick. The Chair is an expression of the University's commitment to Catholic teaching and research. The Chair, formally established May 9, 1988, is designed to bring distinguished scholars to St. Thomas who will provide leadership in the promotion of Catholic theology through teaching, research, and availability to the Roman Catholic community of New Brunswick.

Chair in Canadian Citizenship and Human Rights

The endowed Chair of Studies in Canadian Citizenship and Human Rights is located at St. Thomas University's Atlantic Human Rights Centre. The centre was established in 1988 on the occasion of the 40th anniversary of the United Nations' Universal Declaration of Human Rights, and has as its objective teaching and research in the area of citizenship and human rights. In May 1993, the University and the Government of Canada joined in the establishment of a special Chair of Studies in Canadian Citizenship and Human Rights which, for the University, became a specific project being funded by the St. Thomas University 2000 Fund. This Chair is designed to provide for the teaching of courses and for undertaking research in the field of citizenship and human rights; developing curriculum materials for citizenship education at the school level; facilitating study programs; establishing a national network of individuals and organizations working in the area of citizenship education; and organizing seminars, workshops, and conferences. The Chair works closely with the teachers and researchers in such disciplines as education and political science, as well as human rights.

Chair in Criminology and Criminal Justice

The Chair in Criminology and Criminal Justice was established in 1998 as a result of the generous contributions of the Solicitor General of Canada and the New Brunswick Department of Solicitor General. The Chair of Criminology and Criminal Justice will provide an impetus for academic and applied research on problems in criminal justice. The appointees under the Chair of Criminology and Criminal Justice will be available to the federal and provincial departments of the Solicitor General and will be open to conduct community-based seminars and workshops throughout the Atlantic region and on a national basis. Through the Chair of Criminology and Criminal Justice, the University and its partners will be responding to the criminology and criminal justice needs of Canadian society.

Chair in Gerontology

St. Thomas University signified its commitment to the field of aging in 1982 when it convened a national consultation on aging in contemporary society. Among the goals of the University's national fundraising campaign, launched in the same year, was the establishment of a Chair in Gerontology. Activities of the Chair were initiated during the 1986-87 academic year. The establishment of the Chair in Gerontology has created a centre for research, teaching, community development, and human relations in the field of aging. Workshops, visiting lecturers, and seminars on various aspects of aging are made available to groups who serve the elderly, including the staff of senior citizens' and nursing homes, social workers, families of seniors, nurses, and volunteers. An attempt is made to provide programs that directly involve older persons.

Chair in Native Studies

The Chair in Native Studies was established in 1984 as a result of St. Thomas University's long-standing interest in the educational needs of Native students, and its relationship with the First Nations communities of New Brunswick. The Chair is supported by an endowment trust fund which was created by an agreement between the Government of Canada, The Union of New Brunswick Indians, and St. Thomas University. The Chair in Native Studies supports the interdisciplinary program in Native studies that is offered at St. Thomas University. An important goal of the Chair is to promote the survival of Native peoples and cultures. To this end, the Chair serves both to make university resources available to Aboriginal communities and to promote understanding of Native issues in the larger society. Since the Chair was established in 1984, it has undertaken research and publication in the areas of Native

languages, education, history, and treaty and Aboriginal rights. Under the auspices of the Chair, a Native language immersion teaching certificate program, the first in the country, has been established at St. Thomas University, along with an active program of research and publication of materials in the Mi'kmaq and Maliseet languages.

Aquinas Chair in Interdisciplinary Studies

The Aquinas Chair in Interdisciplinary Studies was established in 1996. The permanent endowment for this professorship was made available from donations made to the St. Thomas University 2000 Fund which had established the creation of a fund for teaching excellence and innovation as one of its objectives. The Aquinas Chair in Interdisciplinary Studies provides intellectual and administrative leadership in the Aquinas program (a first-year Interdisciplinary program), promotes scholarship in the liberal arts, and designs and pilots alternative, cross-disciplinary, and other interdisciplinary curricula.

The Dalton K. Camp Endowment in Journalism

Dalton Camp, who received an honorary doctor of letters degree from St. Thomas University in 1992, was Canada's finest non-fiction stylist. He left a remarkable legacy in political columns and book-length journalistic studies of Canadian politics and public policy. Throughout his extraordinary career, Camp always found time to encourage and support young journalists. The Dalton K. Camp Endowment in Journalism provides funding for scholarships and bursaries for journalism students, for the development of journalism internships, and for a distinguished lecture series that is broadcast nationally on the CBC.

Candidates applying under the Adult Learner policy must include a letter of application describing their educational background, work experience, and academic plans. Adult learners must also submit any academic transcripts. Adult learners may be required to demonstrate their ability to succeed at the University level by taking university courses on a part-time basis.

Continuous Admissions Policy

High School students applying to the Bachelor of Arts program for the fall term

St. Thomas University begins accepting applications from well-qualified candidates in October. Applications are processed on a continuous basis until August 31. Grade 12 students who have achieved an average of 70% or higher on five Grade 11 academic courses, including English literature, and whose Grade 12 programs satisfy the university's subject distribution requirements, will receive conditional offers of admission during the first semester of their senior year. Applicants who wish to be considered under this policy may, beginning in October, submit their high school transcript showing Grade 11 (junior year) final grades, as well as first- and second-term Grade 12 (senior year) courses directly to the Admissions Office.

High school students whose admission averages do not meet the above criteria should arrange for a high school transcript showing Grade 12 first-semester results (or Grade 12 mid-year results for non-semestered schools) to be sent to the Admissions Office as soon as it is available. Qualified candidates will be offered conditional acceptance when these results are received.

All applicants who wish to be considered for scholarships (including the guaranteed scholarships) must submit a transcript showing their grade 12 first-semester results (or Grade 12 mid-year results for non-semestered schools) to the Admissions Office. For major scholarships, transcripts must be received by March 1.

In all cases, students must complete their high school graduation requirements and submit transcripts of their final results (including verification of graduation) to the Admissions Office as soon as they are available.

The evaluation of the various documents and the decision concerning the acceptance of an applicant for admission rest with the Admissions Office. B. Advanced Standing

Candidates applying for admission with advanced standing must arrange to have official transcripts of their university records forwarded to the Admissions Office. To ensure that transfer credits are identified prior to registration, official copies of final transcripts should be submitted by August 15 for September admission. No more than half the number of credit hours for a degree or certificate may normally be transferred courses. Official AP grade reports must be submitted to the Admissions Office by ETS. Students granted transfer credit for AP courses are advised to consult graduate and professional schools to determine the impact on their future academic and career plans of advanced credit for non-university courses. For example, for purposes of teacher certification in the province of New Brunswick, AP courses are not recognized as equivalent to university courses.

Students granted transfer credit for "A" level courses are advised to contact graduate and professional schools to determine the impact on their future academic and career plans of advanced credit for non-university courses.

Academic Year	September to April
Semester One	September to December
Semester Two	January to April
Intersession	April to June
Summer Session	July to August

Registration Procedures for Continuing and Returning Students

Before registering, you are encouraged to seek academic advice and program information from appropriate departments or academic advising.

1. Once you have selected your courses, register online using the web-based student access system (WebAdvisor) at www.stu.ca.

Registration Procedures for New First-Year Students

1. New first-year students beginning study in September will receive a guide to course selection and registration in April. This guide will explain academic requirements and options, and outline the services available to you. It will also contain information on how to register using our online course registration system, WebAdvisor.
2. You will be encouraged to complete your course selections online as soon as you receive your registration email. For questions regarding course selection, students may contact admissions@stu.ca. You will be able to access your course schedule online as well.

Students wishing to take more than 30 credit hours in any year beyond their first year, and having an annual GPA above 2.7 may, on application to the Registrar's Office, be permitted to take up to 18 credit hours per semester. Students having an annual GPA below 2.7 may apply in writing to the registrar to take more than 30 credit hours; these applications will be referred to the Senate Committee on Admissions and Academic Standing for consideration. Thirty-six (36) credit hours constitute the maximum allowed in the regular academic year. Eighteen (18) credit hours per semester constitute the maximum in a semester.
2. The normal course load in the Bachelor of Education and the post-degree Bachelor of Social Work programs is 60 credit hours.
3. A total of 12 credit hours is the normal course load maximum in each of intersession (May-June) and summer session (July-August).

Course Numbers

The course subject, number, and abbreviated title, with the final grade and credit hours, are recorded on the academic record. The four digits of the course number provide some information concerning the course:

1. *First Digit*

The following scale of the first-digit course numbers responds to the level of progression within the discipline:

0000 - non-credit, continuing education

1000 - introductory

2000 - intermediate

3000 - advanced

4000 - seminars, Honours, independent study

5000 - second undergraduate, professional

2. *Second/Third Digit*

The second and third digits are determined by the academic Department.

3. *Fourth Digit*

The fourth digit designates the credit value of the course:

Eg. 6 = 6 credit hours, normally offered over two semesters of an academic year;

3 = 3 credit hours, normally offered within one semester of an academic year. In the case of courses with 12 credit hours, the final two digits designate the credit value.

Course Sections

A letter (or letters) designates a section of a course. A single course may be offered in different timeslots, by different professors, or in different locations. The single or double letters designate the different sections of the course.

Withdrawal from Course (academic year)

To withdraw from a course, a student must notify the Registrar's Office online through WebAdvisor. A student may withdraw from a course at any time up to the last day for withdrawal designated in the academic calendar. In order to withdraw from a first or second semester course without academic penalty, such withdrawal must be completed within eight weeks after the first day of lectures in each semester. In order to withdraw from a full-year course without academic penalty, such withdrawal must be completed within two weeks of the beginning of second-semester courses. The academic penalty for withdrawal after these dates, except for substantial medical or compassionate reasons, will be to have WF (valued at 0 grade points) recorded on the student's transcript of marks.

Repeating Courses

Repeating courses is permitted; however, where the first course has a passing grade, no further credit toward the student's program is granted upon successful completion of the repeated course. The new grade does not replace the old grade on the student's transcript of marks.

There may be circumstances where the student will be denied permission to retake a course. The student's appeal of this decision is to the Senate Committee on Admissions and Academic Standing.

Policy on UNB Courses

As a matter of policy, full-time St. Thomas University students may register in University of New Brunswick courses with the approval of the Chair of the Department and the Registrar's Office. This approval is not automatic and it is given at the discretion of the Registrar's Offices of both universities.

The following regulations are issued for the guidance of the student:

1. students in second, third, and fourth years taking more than the 30 credit- hour load will not normally be approved for courses at UNB.
2. students who have had experience as drop-outs or failures in UNB courses normally will not be approved for courses at UNB.
3. approval of UNB courses is tentative in the sense that it is open to review within a reasonable time by either university. UNB also reserves the right to limit spaces in their courses.
4. students should ensure that they have the appropriate prerequisite background for the proposed courses.

Note: Students are reminded that the UNB schedule of course additions and withdrawals is in force for any UNB courses in which they register. These dates are different from the STU schedule. All changes to your registration in UNB courses must be recorded on the appropriate STU forms and approved by the Registrar's Office.

Section Two: Programs: Bachelor of Arts, Applied Arts, Certificate Programs

A. Bachelor of Arts Degree	38
B. Bachelor of Applied Arts Degree	43
C. Certificate Programs	45

St. Thomas University offers bachelor degree programs in Arts, Applied Arts, Social Work, and Education. St. Thomas University awards degrees and certificates at spring and summer convocation and through early conferral on March 1 and November 1.

A. Bachelor of Arts Degree

The University offers a Major or Honours program within the Bachelor of Arts Degree. Both programs have the following basic requirements:

1. Successful completion of 120 credit hours.
2. A concentration in a specific subject area or interdisciplinary grouping constituting a Major or Honours.
3. No more than 60 credit hours in one subject within the 120 credit hours required for the degree except by special permission of the Senate Admissions and Academic Standing committee.
4. A minimum of 72 credit hours at the intermediate (2000) level and above.
5. An annual GPA of at least 2.0 in the academic year of graduation or on the last 30 credit hours of study.
6. Group distribution requirements as outlined below.

Note: The first year of a program leading to a LLB degree in a faculty of law at a Canadian university recognized by the Association of Universities and Colleges of Canada (AUCC) may be substituted for the fourth year (30 credit hours) of the BA Degree program with approval of the Registrar.

The Bachelor of Arts curriculum consists of a subject concentration and a prescribed distribution of courses.

1. Subject Major

Normally, 36 credit hours in one subject constitute a Major. Currently the University offers Major programs in the following subject areas:

Anthropology	Gerontology	Journalism
Catholic Studies	Great Books	Native Studies
Communications and Public Policy	History	Philosophy
Criminology	Human Rights	Political Science
Economics	Interdisciplinary Studies	Psychology
English	<i>(Areas include Fine Arts, Media Studies and Women's Studies and Gender)</i>	Religious Studies
Environment and Society	International Relations	Sociology
French		Spanish and Latin American Studies

The specific course requirements for a Major in a particular subject area are described in Section Six. Individual departments may, with senate approval, require a specific level of performance in courses applied toward a Major.

Students are expected to declare their subject Major to the Registrar's Office during their second year, and must declare a Major by the beginning of their third year.

2. *Minor (optional)*

Students pursuing a Bachelor of Arts degree may elect a Minor consisting of 18 credit hours in one subject. The specific course requirements for a Minor in a particular subject area are described in Section Six. Students who wish to designate a Minor are responsible for notifying the Registrar's Office of their selection.

3. *General Curriculum Requirements*

The arts curriculum is organized on the basis of a preparatory first year of general studies, partly prescribed, followed by three years of more intensive study in areas dictated by the student's interests and capabilities.

The normal course load in the academic year for full-time students in the Bachelor of Arts program is 30 credit hours. The minimum course load for full-time students is 9 credit hours per semester. The maximum is 18 credit hours per semester, with permission of the Registrar's Office.

In order to meet the goal of a liberal education to develop a breadth of knowledge and depth of understanding, the BA curriculum is offered in different groups and levels of courses. Candidates must successfully complete the following credits from each of the designated groups.

Group A: 12 credit hours (normally taken in first year) from:

Catholic Studies	Irish Studies
Communications and Public Policy	Italian
English	Japanese
ESL	Journalism
French	Latin
Great Books	Native Studies (Maliseet)
History	Native Studies (Mi'kmaq)
Human Rights	Philosophy
	Religious Studies
	Spanish and Latin American Studies

Group B: 12 credit hours (normally taken in first year) from:

Anthropology	Law, Politics, and Society
Business	Native Studies
Criminology	Political Science
Economics	Psychology
Gerontology	Sociology
International Relations	Women & Gender Studies

Students are required to complete a minimum of 6 credit hours from Group C or Group D or both. This means that a combination of courses from Environment & Society, Natural Sciences, Fine Arts, Music and Visual Arts totalling 6 credit hours will satisfy general curriculum requirements for graduation. NOTE: All students who meet the requirements for a major in Psychology are deemed to have completed 6ch in Group C.

Group C:

Courses in natural sciences or Environment and Society and any other courses approved by Senate.

– Senate meeting November 16, 2006.

Environment and Society

Mathematics

Natural Sciences (eg. Biology, Chemistry, Geology, Physics)

Group D:

Courses that have the goal of serving to develop students' aesthetic literacy through creative, cultural, and/or reflective artistic activity which include any courses offered by the Fine Arts Program, and those approved for cross listing in Fine Arts, and any other courses approved by Senate – Senate meeting November 16, 2006.

Fine Arts

Music

Visual Arts

For example:

- 6 credit hours in Group C and none in Group D
- 6 credit hours in Group D and none in Group C
- 3 credit hours in Group C and 3 credit hours in Group D

Normally a full-time student in first year will take five different first-year courses, at the 1000 level, for a total of 30 credit hours. In second year students are encouraged to pursue the breadth of knowledge by selecting a variety of subject areas. In third and fourth years, students are encouraged to pursue the depth of knowledge or the more intensive concentration in their choice of a Major or Honours subject area.

Students are advised to meet the requirements for Groups A, B, C, and D by the end of their third year of full-time study, or by completion of 90 credit hours, in accordance with the following benchmarks:

- by the end of Year 1, students shall have obtained 18 of the Group A and B credit hours required;
- by the end of Year 2, students shall have obtained 24 of the 30 credit hours required;
- by the end of Year 3, students shall have obtained all 30 credit hours required.

a. *The Aquinas program*

The Aquinas program offers first-year students an alternative to the regular, 30 credit-hour first-year program. The program counts as 18 credit hours and is designed to be appropriate to all first-year students. Students in the Aquinas program are required to complete 12 other first-year credit hours, on an elective basis, in order to complete their first year.

Those enrolled in the Aquinas program will join in a learning community of no more than 36 students and three or more professors to study, from a cross-disciplinary perspective, a particular theme of interest in the liberal arts. Students' time will be flexibly scheduled so that seminars, tutorials, full classes, and independent and group work will be scheduled as appropriate. Students will continue with their section of the program for the en-

tire academic year and will receive, upon successful completion, six credit hours in each of the disciplines represented by the three professors. The multidisciplinary structure of the program provides opportunities to make connections between different subject areas, methods of investigation and research, and bodies of knowledge.

The University will annually announce specific areas of study or themes, and the professors who will cooperate in designing and teaching the course for the coming academic year. Any student who has been admitted to St. Thomas for a first-year program is eligible to apply, and will be sent detailed descriptions of the individual sections for the coming academic year. All such students will be informed of application procedures and deadlines. Because all first-year students should have equal opportunities to choose this alternative, if there are more applications than can be accommodated, admission will be by random selection.

b. Second, Third, and Fourth Years

Thirty credit hours are to be chosen in each year. Subjects available are:

Anthropology	Gerontology	Philosophy
Biology	Great Books	Political Science
Business	History	Psychology
Catholic Studies	Human Rights	Religious Studies
Communications and Public Policy	International Relations	Social Work
Criminology	Irish Studies	Sociology
Journalism	Italian	Spanish and Latin American Studies
Economics	Japanese	Women's Studies and Gender Studies
English	Law, Politics, and Society	
Environment and Society	Maliseet	
Fine Arts	Mathematics	
French	Mi'kmaq	
	Native Studies	

c. Note on Requirements for Teacher Certificate

For the purpose of teacher certification in the province of New Brunswick certain requirements in curriculum must be met. The specific requirements may be found in the New Brunswick Schools Act and regulations thereunder. Candidates for the BEd program are advised to consult the current admissions requirements for more information on "teachables."

d. Note on Credit for Professional Courses

Third and fourth-year arts students may be given academic credit for professional courses not ordinarily considered part of the liberal arts or science curriculum; credit will be given for a maximum of 18 credit hours in professional courses.

Applicants for such credit must obtain the consent of the Department in which they are taking their Major or Honours program, of the Registrar and of the committee on admissions and academic standing. Application for such credit should indicate a clear relationship between the student's Major or Honours program and the professional courses in question. These professional courses cannot be counted among the courses satisfying the minimum number required for Majors or Honours.

e. Grade Point Average Required for Graduation

In addition to completing all the course requirements, candidates for graduation must earn an annual grade point average of at least 2.0 in their graduation year. A candidate whose annual grade point average is below 2.0 must take additional courses as determined by the Registrar's Office and achieve such standing in them as the Registrar's Office may determine in order to graduate. For information on calculating grade point averages, see Section Five, Part C – Evaluation and Grading.

f. Distinction

The recognition of "distinction" is awarded to graduates in the Bachelor of Arts and Bachelor of Applied Arts degree programs who attain a combined average of 3.7 over their last two academic years (60 credit hours) of their program.

Honours BA Degree Requirements

The Honours BA program is designed for students with a high level of ability who seek a more challenging and more specialized course of studies within the Arts program. Typically, an Honours program includes a greater number of courses in a student's chosen subject area, and certain advanced-level courses. In most departments, an Honours thesis is required. An Honours degree is commonly required for admission to master's programs at other institutions.

Certificate of Honours Standing

The certificate of Honours standing has been established to provide a means of granting appropriate recognition to those St. Thomas University arts graduates who did not follow the regular Honours program but who, subsequent to graduation, have completed all requirements for the Honours program. Students who have had the Bachelor of Arts degree conferred upon them are not eligible to receive a second arts degree.

This credential recognizes that the student has completed all of the current requirements for the Honours program in the appropriate subject. Students who earned a first undergraduate degree from another university are not eligible for this certificate of Honours standing. These students may enroll as upgrading or non-degree students on a full-time or part-time basis.

In addition to the basic requirements for a Bachelor of Arts degree listed in Section One: Part A, candidates for the certificate of Honours standing must meet specific requirements regarding entrance to the program, the Honours subject or interdisciplinary subject area, the Minor subject (optional), the prescribed curriculum, and the minimum grade point average. These requirements, as well as the procedures for opting out of Honours, are described below.

a. Entrance to Honours program

Honours is reserved for students who are performing at a high level in their Bachelor of Arts program. Individual departments, with senate approval, may require a specific level of performance in designated courses as a prerequisite to Honours.

To enter the Honours program, a student must receive the approval of the appropriate Department and notify the Registrar's Office. Normally, students enter the Honours program at the beginning of their third year.

b. Honours Subject

A minimum of 48 credit hours in one subject will normally comprise an Honours specialization. Candidates will include a minimum of 12 credit hours exclusively designed for Honours students and others capable of independent work at a high level. Usually these courses will be of the seminar type. In most departments, one

course is an Honours thesis. Currently, the University offers Honours programs in the following subject areas:

Anthropology	Interdisciplinary Studies	Political Science
Criminology	(Areas include <i>Environment and Society, Fine Arts, Media Studies and Women's Studies and Gender</i>)	Psychology
Economics		Religious Studies
English		Sociology
French		Spanish and Latin
Great Books	International Relations	American Studies
History	Native Studies	
Human Rights	Philosophy	

The specific requirements for Honours in a particular discipline are described in section four. Individual departments may, with senate approval, require a specific level of performance in courses applied toward Honours.

c. General Curriculum Requirements

The general curriculum requirements for Honours are the same as those for a general BA. (See Section Two: programs, Part A. 3. General Curriculum Requirements.)

d. Grade Point Average Required for Honours

Candidates in the Honours program are normally expected to maintain a grade point average of 3.0 in the Honours subject. In calculating the grade point average for Honours, all courses in the Honours subject (or interdisciplinary subject area) will be counted. For Honours at graduation, a minimum grade point average of 3.0 in the Honours subject (or interdisciplinary subject area) is required. Distinction is awarded to those Honours graduates who have attained a combined average of 3.7 over their last two academic years (60 credit hours) of their program.

e. Procedures for Withdrawal from Honours

A student in Honours may withdraw from the program by notifying the Chair of the appropriate Department and the Registrar.

f. Minor (optional)

Students pursuing an Honours BA degree may elect a Minor consisting of 18 credit hours in one subject. The specific course requirements for a Minor in a particular subject area are described in section four. Students who wish to designate a Minor are responsible for notifying the Registrar of their selection.

B. Bachelor of Applied Arts Degree

St. Thomas University currently offers a Bachelor of Applied Arts in two areas: criminal justice and gerontology. Applied arts programs differ in substance from the BA programs in that they combine the study of liberal arts with technical training. Our applied degrees are “articulated” programs in that each is offered in partnership with one of the campuses of the New Brunswick Community College. Students in the BAA will enroll at St. Thomas for part of their program and at the appropriate community college for the rest. Upon completion of the course of study, students are normally awarded two credentials: a St. Thomas Bachelor of Applied Arts degree and a diploma from the Community College.

Bachelor of Applied Arts in Gerontology Degree Requirements

To graduate with a Bachelor of Applied Arts in Gerontology, the student must successfully complete, in any order, three years of study at St. Thomas University plus the one-year Hu-

man Services Diploma at the New Brunswick Community College (NBCC). Upon successful completion of the NBCC Human Services Diploma program, including two placements in the field of Gerontology, students will be awarded 30 credit hours toward a Bachelor of Applied Arts in Gerontology. The required three years at St. Thomas University will consist of the following program of study:

1. *First Year at St. Thomas University (30 credit hours)*

Students will take 30 credit hours. Twelve credit hours shall be taken from Group A, twelve credit hours from Group B, and 6 credit hours from either Group A, Group B, or electives.

2. *Second Year at St. Thomas University (30 credit hours)*

Students will take 30 credit hours. These courses will include Gerontology 1013 and 1023 (prior to March 2013, it was 2013 and 2023), 6 credit hours in required core courses in Gerontology, 3 credit hours in Gerontology electives, and 15 credit hours in other electives. See course requirements for the Gerontology Major in Section Four of the University Calendar.

3. *Third Year at St. Thomas University (30 credit hours)*

Students will take 30 credit hours. These courses will include 21 credit hours in Gerontology and 9 credit hours of electives. Students who enter the BAA (Gerontology) having already completed the human services diploma at NBCC-Saint John must complete 36 credit hours in Gerontology courses at St. Thomas University.

Upon successful completion of both the NBCC diploma in Human Services and three years of study at St. Thomas, adhering to the program requirements outlined above, students will be awarded the St. Thomas University Bachelor of Applied Arts in Gerontology.

Bachelor of Applied Arts in Criminal Justice Degree Requirements

St. Thomas University has partnered with New Brunswick Community College (NBCC) and Collège Communautaire du Nouveau-Brunswick (CCNB) to offer this unique articulated degree program. This program is a double certification, two-stage admission program. It provides students with a combination of practical training and liberal arts education that will prepare entry-level practitioners to work in various sectors of the criminal justice system (e.g. community correctional practice, policy analysis, program design, or private sector management). Through an integrated program design, a set of curriculum features embed the technical aspects of the program into a humanistic and social science framework. The graduates of this program should enter the criminal justice field with solid occupational skills based on sound academic foundations so that they can better adapt to the changing nature of their field of practice.

In the initial two years of the program, students will be enrolled at NBCC or CCNB with the focus being on providing the student with a well-rounded social science education and an introduction to the criminal justice system. The occupational course content provides exposure to both adult and youth oriented criminal justice with a focus on equipping the student with direct and indirect practice. Upon completion of the first two years of the program, students will have completed the requirements for the credential diploma in Criminal Justice, Police Foundations, Correctional Techniques, or Child and Youth Care from NBCC OR Techniques d'intervention en délinquance, Techniques correctionnelles, Techniques parajudiciaires, and Techniques policières from CCNB. Candidates will apply to the St. Thomas Admissions Office for admission to the second stage of the Bachelor of Applied Arts in Criminal Justice by February 15 of their second year at NBCC or CCNB. The third and

fourth years of the program at St. Thomas University will focus on the further development of the student's theoretical and conceptual understanding of the criminal justice system in Canada into a broader context and framework. Through exposure to the humanities and social sciences at St. Thomas University, the third and fourth years of the program will further enhance the student's ability to think, write, and communicate effectively. The completion of this articulated program, with the two program components providing their respective emphasis on skilled practitioners and critical thinkers, will result in a competent, adaptable criminal justice practitioner.

Students who have completed the NBCC diploma in Criminal Justice, Police Foundations, Correctional Techniques, or Child and Youth Care OR the CCNB diploma in Techniques d'intervention en délinquance, Techniques correctionnelles, Techniques parajudiciaires, or Techniques policières and who are not admitted to the second stage of the BAA (Criminal Justice) may apply to the Bachelor of Arts Degree program. These students must complete regular graduation requirements for a Bachelor of Arts Degree.

To graduate with a Bachelor of Applied Arts in Criminal Justice, the student must successfully complete the following program of studies.

1. *First Year: New Brunswick Community College or Collège Communautaire du Nouveau-Brunswick*

Students will be enrolled full time at the New Brunswick Community College or Collège Communautaire du Nouveau-Brunswick. In addition to a series of required and elective courses, the program includes a three-week practicum in a criminal justice agency.

2. *Second Year: New Brunswick Community College or Collège Communautaire du Nouveau-Brunswick*

Students will be enrolled full time at the New Brunswick Community College or Collège Communautaire du Nouveau-Brunswick. In addition to a series of required and elective courses, the program includes a nine-week practicum in a criminal justice agency

3. *Third Year: St. Thomas University (30 credit hours)*

Please see specific requirements in Section Six: Course Descriptions (Department of Criminology and Criminal Justice).

4. *Fourth Year: St. Thomas University (30 credit hours)*

Please see specific requirements in Section Six: Course Descriptions (Department of Criminology and Criminal Justice).

Section Three: School of Education

A. Admission to Education	50
B. Bachelor of Education Degree Requirements . . .	52
C. Field Placements	53
D. Bachelor of Education Degree Courses	54

School of Education

The St. Thomas BEd is a post-baccalaureate degree program that builds on your previous undergraduate education in arts, science, commerce or other comparable programs.

In other words, we expect students to have well-developed analytical, research and communication skills before they enter the BEd program. In addition, we'll expect you to have enough background and expertise within a particular subject area to teach content.

The BEd program is designed to provide you with a professional education to allow you to effectively share your knowledge and apply your skills in the classroom and other educational settings.

The St. Thomas BEd is an intensive 60 credit-hour program delivered in one calendar year. It offers you the opportunity to concentrate in one of the three teaching areas —elementary (K-5), middle and secondary (6-12), or second language (French).

The program is designed to encourage cross-disciplinary approaches to teaching. One component explores the use of technology for teaching and planning. Faculty have a very close relationship with BEd class members, carefully monitoring field placements and taking an active interest in students' professional development. As a member of the BEd class, you should anticipate a high level of interaction with your BEd peers. Because of the intensive nature of this course of study, you will find that the program's demands on your time, energy, and abilities simulate the kind of work expected of public educators.

A. Admission to Education

Admission is competitive and enrollment is limited. A majority of applicants often exceed the minimum academic requirement. A strong academic record by itself is not enough to ensure acceptance. Evidence of professional suitability, substantiated by letters of reference, is considered on an equal basis with your academic record. Most people who are admitted to the Program have considerable experience working with young people. Letters of reference should substantiate these experiences. You should select your referees judiciously. To strengthen your application, you may consider taking steps to both improve your grade-point average and expand your recent range and depth of work with young people. To be considered for admission to the Bachelor of Education Program, you must satisfy three minimum requirements.

1. A four-year (minimum of 120 credit hours) bachelor's degree from a recognized university, or be a candidate for the degree in the year you wish to begin your Bachelor of Education program.
2. A minimum cumulative grade-point average of 2.7 or a minimum of 2.7 on your most recent 60 credit hours attempted.
3. Teachables: You must be eligible for level 5 teacher certification with the New Brunswick Department of Education. This will require a four-year undergraduate degree of 120 credit hours. Applications must have either 30 credit hours as a major in a teachable subject area, or 24 credit hours in one major teachable subject area and 18 credit hours in another teachable subject area. Teachable majors and minors are listed at Required Teachables. They are required for New Brunswick teacher certification

eligibility. Teachable subject areas may be found at <https://www.stu.ca/education/required-teachables/>

French Second Language Guidelines:

In order to be admitted to the French Second Language Program and to FSL courses offered in the BEd Program, you must have a minimum proficiency of Intermediate Plus on the New Brunswick French Oral Proficiency scale. If you wish to do your field placement in an Intensive French classroom you are required to have a minimum proficiency of Advanced and if you wish to do a placement in a French Immersion classroom you are required to have a minimum of Advanced Plus proficiency.

Application Process

Applications to the Bachelor of Education program are accepted online via the Admissions Office.

1. a completed application form for admission to the University;
2. a non-refundable application fee of \$55 (\$40 for New Brunswick Applicants);
3. a letter of intent (800-1000 words) in which you discuss your interest in becoming a teacher, your teaching preference (elementary, middle/secondary or second-language French), your reasons for applying to the program, any formal or informal teaching experience you may have had, your work with young people, and any skills or qualities you have that should be considered in the assessment of your application;
4. three reference letters that assess suitability for the teaching profession in terms of personal qualities and ability to work with young people (referees who can speak directly about your ability to work with young people are preferred). Your three reference letters should support your letter of intent. Please refer your referees to the **Referees for the Bachelor of Education Applicants** form. As part of their application to the Bachelor of Education program, applicants will be asked to submit their referees' names and contact information. Upon submission of the application, applicants' references will be emailed a reference form by the Admissions Office, which must be completed by the January 15 deadline by each referee
5. official transcripts of marks from all post-secondary institutions attended. If you are currently enrolled in university courses, you should ensure that transcripts of mid-year grades are submitted to the Admissions Office by January 15, and that arrangements are made to have final transcripts of marks forwarded after graduation.
6. a current personal résumé which includes recent education, work and volunteer history.

International candidates should prepare to provide a WES evaluation of their post-secondary transcript(s) and may also be required to submit language proficiency test results..

Note: As part of the application process, candidates may also be contacted by the selection committee for a personal interview.

Notification of Admission

Candidates for admission to the BEd program will be notified of their admission status upon completion of the selection process. Given the high number of applications received, the School of Education is not able to provide individual feedback to unsuccessful applicants. Should you wish to reapply, you are advised to strengthen your application in the areas of professional suitability and academic preparation, by giving particular attention to the

requirements outlined on the School of Education website: <https://www.stu.ca/admissions/bachelor-of-education/#guidelines> .

After receiving an offer of admission, accepted candidates are required to submit a non-refundable \$300 advance deposit on tuition as confirmation of their acceptance of placement in this program.

1. Please consult the electronic version of the calendar for the most up to date course offerings.
2. You will receive the Bachelor of Education Handbook upon acceptance. Please read carefully.

Note: Accepted candidates who have not already done so must submit a final, official university transcript, including notification of graduation, by July 15.

4. Field Placement (EDUC 5015)

Decisions regarding field placements are made in accordance with the “Field Placement Policy and Procedures” found in the Bachelor of Education handbook. This handbook is given to all BEd students at the beginning of the program.

** The number of required courses vary from year to year.*

C. Field Placements

The School of Education follows specific professional standards that govern field placements. These standards are in compliance with the outside governing bodies that accredit the Bachelor of Education degree: *The Education Act* (S.N.B. 1997, c. E-1.12), Department of Education and Early Childhood Development of the Province of New Brunswick; and the New Brunswick Teachers’ Association Code of Professional Conduct. The standards are outlined in the St. Thomas University *Bachelor of Education Field Placement Handbook*. The field placement of teacher candidates is under the course title EDUC 5015 Field Placement. A failure in this course results in dismissal from the program. Field placements are offered twice a year, in November/December and March/April.

Practices Governing Field Placements

To ensure that the interests of students in the public school are a first priority, and to provide the best teacher education possible, the following practices are in place in the St. Thomas University Bachelor of Education program.

Deferred Placement

A deferred placement may be granted for medical reasons. The STU School of Education may grant a deferral in the field placement (public school) of up to one academic year if:

- the teacher candidate requests a deferral in writing on the grounds of their health.
- there is evidence following the deferral that the prospective teacher candidate is able to deliver the quality of instruction normally expected of teacher candidates at the level and in the subject concerned.

Should a deferred field placement be granted, the School of Education will attempt to arrange a placement at the earliest possible time, consistent with the teacher candidate’s academic program and subject to the availability of appropriate settings. The teacher candidate will have to provide a medical note prior to the deferred placement indicating they are ready to take on the rigors of the program. **Please note that there are additional costs associated with a deferral.**

Denied Placement

The STU School of Education may deny placement in the field (public school) if:

- the prospective teacher candidate has failed to complete one or more courses

- successfully;
- there is evidence that the prospective teacher candidate is unable to deliver the quality of instruction normally expected of teacher candidates at the level and in the subject concerned;
- there is evidence that the prospective teacher candidate has violated the Professional Code of Conduct of the New Brunswick Teachers' Association and/or the *New Brunswick Education Act*;
- the prospective teacher candidate does not provide a current and appropriate vulnerable sector/criminal record check;
- the prospective teacher candidate has not passed the official test on Policy Statement 701 and Child Victims of Abuse and Neglect Protocol (created by the School of Education and approved by the Department of Education and Early Childhood Development in accordance with the Education Act (S.N.B. 1997, c. E-1.12).

Withdrawal/Dismissal from the Field Placement and Bachelor of Education Program

The School of Education may recommend to the Vice-President (Academic & Research) the withdrawal/ dismissal of a teacher candidate from a placement in the field (public school) if:

- there is significant evidence that the teacher candidate is unable to meet the requirements of completing a successful field placement;
- there is evidence that the teacher candidate has not met the requirements of the *NB Standards of Practice for Initial Teacher Education Programs* and the *Bachelor of Education Field Placement Handbook*;
- the teacher candidate fails to adhere to the attendance policy as outlined in the *Bachelor of Education Field Placement Handbook*;
- the teacher candidate violates the New Brunswick Teachers' Association Code of Conduct, and/or the *New Brunswick Education Act* and/or its associated policies;
- the teacher candidate fails to attend or chooses to leave the assigned field placement without approval of the School of Education.

Process for Dismissal from the School of Education

The recommendation for dismissal will be brought to the entire School of Education faculty. After this meeting, a recommendation for dismissal or withdrawal may be made to the Vice-President (Academic & Research) with copies to the Registrar and teacher candidate. At the dismissal or withdrawal meeting with the teacher candidate, a SRC Student Advocate may be present. A dismissal or withdrawal will result in no graduation, no certification, and removal from the Bachelor of Education program.

A. Admission to Bachelor of Social Work	70

C. Master of Social Work	74
D. School of Social Work Policies	79
E. School of Social Work Courses	79

School of Social Work

The School of Social Work is committed to a politicized social work practice grounded in a structural approach. This fosters greater awareness of the broad and intersecting injustices caused by oppressive structures while preparing students to be effective and ethical practitioners.

Our goal is that graduates are able to integrate vision, knowledge, and skills for practice that may lead to social transformation toward a more equitable and just society. While seeking to develop and teach a politicized social work practice, we strive to remain open to new ideas, analyses, and realities that challenge and inform our ongoing efforts.

The School of Social Work, which offers the only English master and bachelor of social work degrees in New Brunswick, began as a Bachelor of Arts in Applied Social Science in 1976, followed by the addition of a Certificate of Social Work, and a Bachelor of Social Work in 1980.

In 1983, the Union of New Brunswick Indians and New Brunswick Indian Committee requested development of a social work program for Indigenous students. This began with a Certificate in Social Work and has evolved to the Mi'kmaq and Maliseet Bachelor of Social Work program which provides accredited professional social work education to Indigenous students in a flexible and culturally relevant framework.

The Master of Social Work Program, which focuses on advanced clinical practice, was launched in 2021. It provides students with advanced theory and practice skills in professional leadership, social work supervision, and direct practice skills development.

A. Bachelor of Social Work Program

The Bachelor of Social Work four-year degree provides graduates with the theoretical knowledge and skills they need to work with individuals, families and communities. A balance of general liberal arts education in the first two years, followed by a professional social work education in the final two years, through both courses and practical field placements, provides the knowledge and skills for a generalist social work practice.

Students apply to the program after their second year of a Bachelor of Arts having earned 60 credit hours. The courses in the liberal arts are significantly strengthened in the subsequent two years by a series of core courses essential to a social work practice; critical social work theory, anti-oppressive social work practice, group work, mental health issues, addiction, child welfare, trauma, and family law. The field practicums supplement these courses, with one focusing on social action at the community/organization level, and a second in a clinical setting with local social agencies, supported by experienced field instructors. In addition, a research methods course helps students keep pace with the changing landscape of social work scholarship and prepares them for professional practice.

Practicums

The Bachelor of Social Work includes a minimum of 700 hours of field practice, as required

by the Canadian Association for Social Work Education Standards for Accreditation. The first practicum commences during the Winter Semester of the third year (250 hours). The second practicum occurs during the Winter Semester of the fourth year (450 hours) in a block format, four days a week.

Topics in Social Work

- History, values, ethics, and skills of social work practice
- Critical analysis of social welfare, social policy and social services
- Challenging oppression and confronting privilege in social work practice
- Community organizing
- Preparation for professional practice

Note: Applicants who do not satisfy these minimum academic requirements are not considered further in the selection process.

SCWK-3843. Suicide and Indigenous Peoples (NATI)

Suicide is, and has been for nobody knows how long, rampant in indigenous populations in Canada. Despite well-publicized projects targeting specific communities, none of the interventions have been able to demonstrate any positive effect; if anything, the problem continues to worsen. We examine critically the field of Suicidology as it applies to the Native Peoples of Canada and suggest reasons why efforts to prevent suicide have not paid off. We also explore different kinds of interventions that may be more successful.

SCWK-3853. Alcohol, Drugs, and Indigenous Peoples (NATI)

This course provides an introduction to issues of alcohol and drug use/abuse in indigenous communities (concentrating on Canada for the most part, but including reference to such issues in other indigenous communities worldwide). Traditional uses of substances which alter consciousness are reviewed, as well as the role that the introduction of unfamiliar psychoactive substances played in European expansionism and colonialism. Modern models of addiction and programs for recovery are critically examined and placed within the context of creating a continuing marginalization of indigenous cultures by dominating ones.

SCWK-3903. Theory for Social Work Practice

A central assumption of this course is that social work as a profession needs to be self-critical in order to guard against continuing and increasing oppression experienced by members of various groups as they access social welfare programs and social work intervention. Therefore, a critical analysis of social welfare, social services and social work practice (primarily in the Canadian context) will be the central focus in the course.

SCWK-3943. Social Work Values & Ethics

Students will use a structural focus to critically examine the ethical issues and dilemmas across population groups of the social work profession as they relate to the development of a distinct theoretical knowledge-base, set of values, code of ethics, and approaches practice. The goals of this course involve students developing and demonstrating a critical understanding of ethics theory situated within a sociopolitical and cultural context; knowledge of common ethical issues in social work practice and ethical guidelines impacting on practice; application of this knowledge through assessment and ethical decision making skills; and self-awareness in relation to these issues.

Department of Anthropology

The courses offered by the Department of Anthropology are organized into three different fields: social/cultural anthropology, archaeology, and physical anthropology; and three different levels: introductory, intermediate, and advanced.

Courses at the introductory level, numbered in the 1000 range, are intended for first-year or beginning students of anthropology. Students should note that these courses are prerequisites for all others in their respective fields and levels unless otherwise noted: ANTH 1013 is a prerequisite for all other courses in social/cultural anthropology unless otherwise noted; ANTH 1023 is a prerequisite for all other courses in physical anthropology with the exception of ANTH 2443 and the courses in forensic anthropology.

Courses at the intermediate level, numbered in the 2000 range, are intended for students who wish to pursue their study of anthropology, as well as students in other disciplines with an interest in anthropology.

Courses at the advanced level are intended for students majoring and honouring in anthropology, though other third and fourth-year students with a strong interest in anthropology are welcome. Courses at the 3000 level are for students in their third and fourth years.

Courses at the 4000 level are intended for fourth-year students majoring or honouring in anthropology; permission of the instructor is required for admission to these courses.

ANTH-2333. World Archaeology

This course will introduce students to past cultural expressions in different parts of the world. Following a general introduction to archaeological methods and techniques and the nature of archaeological record, this course will proceed to discuss multiple archaeological cases related to the ways of life of hunter-gatherers and complex societies - chiefdoms and states - as well as the rise and fall of these forms of social and political organization. Past cultural practices and the processes that give rise to cultural change will be examined in different locations around the globe. Prerequisite: None.

ANTH-2343. Archaeology of Early Societies: North and Central America

A time span of more than 12,000 years will be covered during the term. Prerequisite: None.

ANTH 2363. Archaeology of Early Societies: Mesoamerica

Mesoamerica is an area covering Southern Mexico, Guatemala, Belize, Honduras and Salvador. In this region hunter-gatherers' experimentation with plants gave rise to the cultivars, such as tomatoes and corn. Three thousand years ago urban centers developed there, political organizations arose and writing was invented. Two thousand years ago the first mega city in North America was created there. This course explores, using archaeological concepts and theory, 10,000 years of Mesoamerican cultural diversity and history.

ANTH-2413. Human Biological Variation

The goal of this course is to understand why biological variations exist and how these variations help populations adapt to varying environments. The course will examine visible human adaptations (e.g. differences in skin pigmentation) and invisible adaptations (e.g. thermal acclimatization, blood groups). An important component of the course will be anthropological demography, i.e. the study of population structure and cultural/historical influences on health and mortality. The format of the course will be a combination of in-class lab work/exercises and lectures. Not open to first-year students.

ANTH-2423. Human Evolution: Fact and Theory

This course is a study of the current knowledge and scientific debate regarding the origins and development of the human species. Fossil evidence and evolutionary theory from a historical and modern perspective are emphasized. Not open to first-year students.

ANTH-2443. Human Skeletal Biology

The focus of this course is the anatomy of the skeletal and skeletal muscular systems of the body. Students will learn the details of both the human and nonhuman skeleton in a concentrated lab format. Not open to first-year students.

ANTH-2513. Cultural Anthropology

This course examines culture both conceptually and in its diverse forms ranging from foraging to peasant and industrial societies. Both non-Western and Western value systems and their social expression in political, economic, and ideological institutions will be studied from cross-cultural and historical perspectives. The study of non-Western societies will also be used in a critical examination of contemporary Western industrial societies. Prerequisite: ANTH 1013.

ANTH-2523. Social Anthropology

This course investigates social forms such as kinship, marriage, descent, age groupings, and interest associations, as well as processes of stratification, change, and social control in society. Ethnographic examples are used to illustrate how social aspects of economy, political order, religion, and language constitute social systems. Prerequisite: ANTH 1013.

ANTH-2533. Anthropology of Gender and Sexuality

This course examines male and female roles in a number of different cultural settings, especially non-Western societies. Particular attention is given to the cultural expectations of gender behaviour, the structure of economic opportunities for males and females, and how shifts in opportunity structures impact gender roles. Various examples illustrating the roles of males and females in the context of marriage, domestic group organization, economic decision making and political decision making, will be presented. Prerequisite: ANTH 1013.

ANTH-2623. Applied Anthropology

This course distinguishes between applied and basic anthropological research and examines new career opportunities for anthropologists in such areas as public health, urban and community development, international development, human rights, education, and social services. Important ethical and policy considerations are reviewed within the context of the profession of applied anthropology.

ANTH-2633. Anthropology of Music and Sound

The aim of this course is to examine a range of key issues in ethnomusicology, from the classic works of the discipline to contemporary theories and approaches, and including aesthetic systems, the representation of music, music and cultural change, and the musical articulation of social identity. The course will not only offer an insight into musical diversity in cultures around the world, but will also develop the fundamental view that music both expresses and actively constructs social and cultural realities. Prerequisite: ANTH 1013.

ANTH-3253. Queer Anthropology

This course will introduce students to the changing disciplinary trends in the anthropological study of Queer. We will evaluate the use of 'Queer' as a theoretical and cultural concept and as a method in queer anthropology and explore the relationship between a queer anthropological perspective and other, often marginalized traditions in anthropology. Students will critically analyze what queer anthropological perspectives, methods, and forms of knowledge teach us about the practice/field of anthropology more broadly.

ANTH-3323. Hunter-Gatherers in the Modern World (ENVS)

This course begins by exploring the definitions of hunter-gatherers and by examining what sets them apart from other peoples. Early evolutionary views of hunter-gatherers are contrasted with current research on the diverse economic foundations of hunter-gatherer societies. The course covers questions of identity, property rights, gender, modes of production, and distribution of resources, drawing upon examples from various geographical areas. Prerequisite: ANTH 1013.

ANTH-3333. Economic Anthropology: Anthropology of Exchange

This course will explore how anthropologists have examined exchange, sharing, and transfers of goods within and between societies. Since Malinowski and Mauss, anthropologists have focused on gift giving and exchange. In this course we will contrast various forms of exchange paying special attention to the differences between gifts and commodities. We will explore what role money plays in subsistence economies and how some societies use leveling mechanisms to maintain egalitarian distribution. Prerequisite: ANTH 1013.

ANTH-3443. Forensic Osteology and Archaeology

The focus of this course is the application of skeletal biology to the medical-legal investigation of deaths, including description and identification, determination of cause and manner of death, and estimation of time of death, and the collection of physical evidence. The course will be taught in a combined lecture/lab format. Prerequisite: ANTH 2443.

ANTH-3453. Medical Anthropology

Medical anthropology is the study of health and disease patterns in human populations under different ecological settings. It takes an holistic approach, viewing humans as multidimensional biological organisms, social persons, and beings who communicate and maintain cultural systems. Each of these dimensions includes aspects of health maintenance that reflect larger cultural patterns. The focus of the course will be to emphasize a multidimensional view of health and disease in various geographical settings. The course will examine the health implications of interactions between human groups and their physical and biological environments, and how human populations adapt to environmental problems, maintain health, and persist over time.

ANTH-3463. Psychological Anthropology (PSYC)

This course introduces students to psychological anthropology, a major sub-field of cultural anthropology. Though similar to cultural and cross-cultural psychology in that it studies how thought, emotion, and experience relate to social and cultural processes, psychological anthropology is distinct from these fields in psychology in its emphasis on the ethnographic method. Though prior basic familiarity with cultural anthropology is an asset, no other previous knowledge is necessary in order to succeed in this course.

ANTH-3643. Anthropology of Religion

This course emphasizes an understanding of religious phenomena by viewing religion in the context of the diversity of cultures. Prerequisite: None.

ANTH-3663. Urban Anthropology

This course emphasizes a cross-cultural approach to the characteristics of urban society. Major themes of the course include the processes and patterns of urbanization in developing and developed countries, and theories of rural-urban migration. The effects of urbanization on work, family, sense of community, housing, health, education, and recreation will also be examined. Anthropological research methods such as holism and participant

observation will be examined and students will have an opportunity to be involved in urban ethnographic research projects. Prerequisite: ANTH 1013.

ANTH-3673. Music and Globalization

This course is an examination of music from different parts of the world with the intent of understanding the significance of music in diverse cultural contexts. The course will take as fundamental the idea that music does not merely express underlying cultural realities, but plays an active role in constructing those cultural realities. More importantly, however, this course analyzes the cultural, political, and economic implications of the process whereby a wide range of the world's musics have been commodified and sold in the global music marketplace through the mediation of the global music industry. Prerequisite: None.

ANTH-3683. The Anthropology of Sport

This course examines the role of sport cross- culturally in both Western and non-Western societies. It will focus on the role of sport in politics, religion, economics and mass media, surveying such issues as socialization, the social construction of identity, class, gender, ethnicity, ideology, power, representation and ritual. These issues will be addressed through in-class activity and fieldwork involving sporting events. Prerequisite: None.

ANTH-3693. Media Anthropology

What role do media play in cultural production and maintenance? Our primary concern will be to analyze the ways people engage with communications media to confer cultural meanings on their surroundings, to forge social relations, and to negotiate power. We will deal with questions of coding and decoding; the manipulation of audiences, audience reception, class relations maintained through media and examine the notion of cultural imperialism among others. We will also address some of the practical and theoretical issues anthropological media research poses looking to media production, circulation and reception in various parts of the world. This course reviews the burgeoning literature in media and new-media anthropology and draws on specific cases throughout the world and across media to highlight methodological and conceptual challenges. The general aim is to promote interest and independent inquiry into this relatively new field of anthropological study. Prerequisite: ANTH 1013.

ANTH-3723. Human Ecology (ENVS)

Since its beginning, anthropology has been interested in the relationship between people and the geographical setting where cultures develop. The history of the discipline is full of contrasting examples in which nature and culture are used, within different conceptual and methodological frames, to explain cultural change, social structure, cultural development, and landscape history, among other topics. The main objective of this course is to explore such different approaches using examples from different biogeographical regions. Prerequisite: None.

ANTH-3803. Reading Ethnography

This is a course in reading ethnographic literature. It emphasizes reading comprehensively and profoundly in order to gain a fuller appreciation of different cultures, and it examines issues of translating cultures into the terms of our own Western understanding. Reading examples range from classic ethnographies to recent experimental designs in writing culture. Prerequisite: None.

ANTH-3806. History of Anthropological Thought

This course is an intensive reading and seminar discussion on selected recent anthropological theories. Students will read and analyze original works from the second half of the 20th century to the present in an attempt to evaluate their explanatory value and their consequences in the development of anthropology as an academic discipline.

Prerequisite: ANTH 1013 and one area ethnography course. Anthropology majors must take this course in their third year of study.

ANTH-3913. Research Methods: Introduction to Qualitative Research Methods

There are two main goals in this course. The primary one is to familiarize students with some of the basic research methods that anthropologists use to construct ethnographic case studies. In the course, the student will gain experience in gathering, recording, interpreting, and presenting qualitative research material. At the same time, we will consider the close relationship between data collection and ethnographic writing. In relation to the latter, students will carry out exercises designed to aid them in developing a clear and concise style of both more formal writing and less formal note taking. The overall goal of the class will be to learn to collect, analyze, and clearly present ethnographic data. Prerequisite: ANTH 1013 and one area ethnography course. Anthropology majors must take this course in their third year of study.

ANTH-4003. Issues in Anthropology

This is an advanced course in anthropological theory which focuses on an issue or set of issues that are of particular concern in anthropology today. The course will be oriented around intensive reading and discussion of theoretical materials drawn from anthropology and allied disciplines. Possible issues include the dialectic between structure and agency, the commensurability and translation of cultures, power and knowledge, and the writing of ethnographic texts, among others. Honours students may be required to fulfill separate course requirements from Majors. Prerequisites: ANTH 3806 and ANTH 3913. Anthropology majors must take this course in their final year of study. Register with permission by instructor.

ANTH-4013. Honours Seminar in Anthropology

This course is designed to help you with your Honours thesis requirement. It involves both practical work on your own thesis and a consideration of the written work of various anthropologists. The course will include a consideration of the importance of both macro (large-scale) and micro (small-scale) levels of analysis for contemporary ethnographic production. Special attention will be given to the fit between theory and empirical evidence. Both classic and new experimental styles of writing anthropology will receive consideration. Prerequisites: ANTH 3806 and ANTH 3913.

ANTH-4023. Celtic Musics and Invented Traditions in Atlantic Canada

This course examines the musical traditions of the Irish and Scottish diasporas in Atlantic Canada. The course materials consider the historical context of Irish and Scottish migration to Atlantic Canada in the 18th and 19th centuries, contact and cross-fertilization with other musics in the region, the development of locally-specific musical traditions (related to, but not the same as, Irish and Scottish musics), folk revivalism in the second half of the 20th century, and contemporary musical genres and practices. This course is intended for fourth-year students. Prerequisite: At least 15 credit hours in ANTH, or permission of the instructor.

ANTH-4443. Applied Forensic Anthropology

The focus of this course is the analysis of specific cases in forensic anthropology, demonstrating how the various components of the law enforcement agencies become involved, and at what stage. The class will analyze the skeletal material associated with each case and do background research as a means of solving the case. The format of the course will be mainly in-class lab work accompanied by extensive research and off-campus visits. Limited enrollment. Prerequisite: ANTH 3443 and permission of the instructor.

ANTH-4453. Seminar on Selected Topics

Directed research and seminar on a topic of current interest.

ANTH-4553. Independent Study

A program of independent study under the direction of a member of the faculty selected by the student. It is designed for students who wish to pursue an area of special interest through reading, research, and writing.

ANTH-4666. Honours Thesis

The Honours thesis is a scholarly essay or research paper on a topic chosen by the student in consultation with a faculty member who agrees to serve as thesis adviser. When completed, the thesis is read and graded by the thesis adviser and two other members of the Department. A minimum grade of B is required on the thesis for an Honours degree. Honours students may also be expected to present their work publicly within the university community. Prerequisites: ANTH 3806 and ANTH 3913.

NOTE: Not all courses listed are offered each year. Please consult with the Department Chair for more information about current and planned course offerings.

Aquinas Program

Designed for first-year students, the Aquinas Program is an innovative approach to learning that combines three academic disciplines in a small-class setting where seminars, team teaching, and interdisciplinary approaches foster a high level of literacy and critical thinking. While providing required first-year credits, Aquinas thoroughly introduces academic disciplines and opens areas for exploration and discovery.

First-year students typically take five courses in five academic subjects. In Aquinas, three of these courses are organized into one section with a common theme and the same group of students and professors. Enrolment is purposely limited to create a close-knit community of learners.

First-year students register for the Aquinas Program as part of the first-year registration process.

Aquinas Sections

Department of Economics

In addition to mainstream Economics, the Economics program at St. Thomas explores the interdisciplinary connections of Economics through a political economy approach.

The Department of Economics offers (1) a Major in economics, (2) a Major in Economics with a business option, (3) Honours in Economics, (4) Honours in Political Economy, and (5) a Minor in Economics, as well as a variety of general interest courses.

Courses are offered at three levels: introductory, intermediate, and advanced. The introductory level, ECON 1006, is a general interest course; this is a normal prerequisite for further studies in economics. ECON 1006 is also available in two one-semester courses, ECON 1013 and ECON 1023. Credit will not be granted for both ECON 1013 and/or ECON 1023 and ECON 1006.

The Department of Economics offers a number of courses (including interdisciplinary courses) of general interest, as well as courses in economic analysis for those concentrating in economics. Courses for general interest students include:

ECON 1023	Introduction to Economics (Macro)
ECON 2003	The Art of Science of Happiness
ECON 2173	Economic Geography
ECON 2203	Community Economic Development

At the advanced level, courses in the 3000 series are intended for students with a good background in economics, and courses in the 4000 series are reserved for advanced Majors and Honours students.

Please note that students who enroll in Honours economics, and Majors who opt to take ECON 4013 and ECON 4113, will require first-year university mathematics. These students are strongly encouraged to take MATH 1013 and MATH 1023 in their first or second year. In addition, students planning to pursue graduate studies in economics after their BA are strongly recommended to complete courses in Linear Algebra and Intermediate Mathematics, prefer-

ably prior to taking ECON 4013 and ECON 4113.

Minor in Economics

Students wishing to pursue a Minor in economics are required to take 18 credit hours of economics courses, including ECON 1006 or 1013 & 1023.

Major in Economics

Students who elect a Major in Economics usually do so at the beginning of their second year; this enables them to take their economics courses in the best sequence. Students may elect a Major in Economics at the beginning of their third year, but their options may be restricted.

For a Major in Economics, 36 credit hours are required, including:

English as a Second Language (ESL)

Within the Bachelor of Arts, St. Thomas offers a unique English as a Second Language (ESL) program for students whose level of English proficiency is not high enough to pursue regular studies at an English-language university. These students are provided the opportunity to begin university studies for credit while they continue to improve their language skills in a planned, individualized program of study.

To be eligible for this program, ESL students must have TOEFL (computer-based) scores of between 173 and 230 or the equivalent on other tests. A combination of ESL courses and adapted courses in other disciplines enables students to achieve the level of proficiency in English necessary to be successful in regular university studies. All of the courses that students take in the ESL program carry academic credit.

A personal approach guides the ESL curriculum. Every student who has not yet fully mastered English is tested through an oral interview, a vocabulary and grammar test, and an essay assignment. Based on the results of these tests, an individualized curriculum is developed for each student suitable for his or her level. The curriculum will be challenging, but not overwhelming. It will be based on four options:

ESL Courses for Academic Credit

These required courses focus on the major skills needed for success in academic studies: listening, speaking, reading, and writing. The ESL program has a graduated sequence of courses that eligible students must complete from their entry level. Students admitted to ESL 1013 upon their arrival will usually take six ESL courses over two years, while students admitted to ESL 2213 will take two courses in one year.

Integrated Courses

These are sections of regular St. Thomas University courses (such as Introduction to Psychology and Literature) reserved for ESL students. They are taught by professors who meet with the class for an extra hour each week so that they can present the material more slowly and take extra care to ensure that the students understand the material.

Assisted Courses

These regular St. Thomas University courses are open to all students but ESL students are provided with a tutor who meets with them to review the material presented in class, to help understand the readings, and to assist with assignments and exam preparations.

Regular Courses

These are the regular course offerings for all St. Thomas University students. Hundreds of courses in more than 25 different academic fields of study are available for first-year students each semester.

The first-year curriculum for students who attain an intermediate level in their English language skills evaluation includes:

Semester 1

ESL 1013 English for Academic Purposes: Reading and Writing I

ESL 1033 English for Academic Purposes: Speaking and Listening I

Two Integrated Courses

One Assisted Course (optional)

Semester 2

ESL 1023 English for Academic Purposes: Reading and Writing II

ESL 1043 English for Academic Purposes: Speaking and Listening II

One Integrated Course

Two Assisted Courses (optional)

Intersession and Summer Session

Some full-time ESL students may be best served by taking fewer than five courses per semester, which is the normal full-time course load. The university therefore permits ESL students who are directed to take fewer than five courses to make up those credits at Intersession (May-June) or Summer Session (July-August) free of charge.

Admission Requirements

Students who meet the following minimum English Language Proficiency scores and the St. Thomas academic admission requirements are eligible for the ESL program: TOEFL: 61 (Internet-based), TOEFL: 173 (computer-based), TOEFL: 500 (paper-based), MELAB: 69, IELTS: 5.0.

Students with TOEFL scores of 88-89 (Internet-based), 230 (computer-based), 570 (paper-based) or a MELAB score of 80 or an IELTS score of 6.5 or greater are eligible to take five regular academic courses but may take integrated and assisted courses if they wish.

Regulations

1. The ESL program has a graduated sequence of courses that eligible students are required to complete from their entry level. For example, students admitted to ESL 1013 upon their arrival will usually take six ESL courses over two years, while students admitted to ESL 2213 will take two courses in one year.
2. Students who want to leave the program before they have completed it must convince the Director that they have the required English language skills by achieving a grade of A- on their last ESL course and one of the following scores on an external test: 60 on CAEL; 230 on TOEFL (computer-based) or 88 on TOEFL:BT. The CAEL test is available at Saint John College at UNB-Saint John, NB and TOEFL tests are available in Sackville, NB and Halifax, NS. Students must arrange and pay for these tests themselves.
3. Students must successfully pass the first-year courses before moving on. A student who fails the first-year courses twice is excluded from the ESL program. These students would be eligible to reapply to St. Thomas University when they can demonstrate that their English language skills are stronger.
4. Students taking courses in the ESL program are restricted to a total of 15 credit hours per semester. In exceptional cases, the Director may permit a student to exceed this course load.

5. The pedagogical strategies used in language courses require active participation from students. Attendance is obligatory in the ESL courses. A student who misses over 10% of an ESL course without a justifiable reason will be dismissed from the program.

Environment and Society

The goal of the Environment and Society Program is to inspire and prepare students to become leaders in the quest for a sustainable world.

Since the turn of the 21st century, global scientific assessments have demonstrated that human activity is having far-reaching negative effects on the Earth system. Biologists propose that the Earth is experiencing the Sixth Mass Extinction. Climate scientists warn that we are approaching a global warming threshold that, if crossed, will result in dangerous climate change. Some scientists propose that we have entered a new geologic epoch called The Anthropocene, the age in which humans have become the dominant force changing the face of the Earth. These changes are the result of complex interactions between human societies and the natural world in which we are embedded.

Through the Environment and Society Program, students come to understand the social structures that are driving these Earth system changes, and the worldviews that underpin them. They also discover how power is exercised to maintain the status quo, and how they themselves can become change agents.

Major in Environment and Society

Environment and Society is offered as a double Major. Students choosing Environment and Society as their Major will also complete a second Major in another field of study. Because Environment and Society studies are interdisciplinary, any discipline that a student may choose would complement their ENVS program. ENVS electives offered by other departments may count both for the ENVS Major and for the Major in that department.

Note that not all courses are offered every year. Students should consult with the ENVS program coordinator to plan their program of studies.

The Major in Environment and Society will consist of 36 credit hours distributed as follows:

A. Required Environment and Society Courses

ENVS 1013	Environment and Society I: Understanding Environmental Problems
ENVS 2023	Environment and Society II: Perspectives on Human-Nature Relations
ENVS 3013	Environment and Society III: Policy, Power and Politics

ENVS-1013. Environment and Society I: Understanding Environmental Problems

Earth systems science reveals that the environmental conditions that supported the development of human civilization over the past 10,000 years are becoming increasingly destabilized. This course introduces students to the Earth's regulatory systems such as climate, nitrogen and phosphorus flows, forests, oceans and biodiversity, and the social structures and processes that are interfering with them. Students will come to understand that environ-

mental problems cannot be solved by individual behavioural changes; solutions will require collective action to achieve systemic change.

ENVS-1023. Introduction to Environmental Praxis: Thinking Globally, Acting Locally

Praxis can be understood as reflection and action for social change. Drawing on learning in ENVS 1013, students will investigate how global environmental problems are manifested at the local level. They will then develop local action strategies to effect change in those systems. This approach will foster citizenship skills and empower students in the face of global problems. This course will qualify for the STU Experiential Learning Certificate. Prerequisite: ENVS 1013.

ENVS-2023. Environment and Society II: Perspectives on Human-Nature Relations (HMRT 2243)

Social systems are constructed on a set of dominant beliefs, assumptions and values that are largely unexamined but shape the way societies perceive and interact with the natural world. In this course, students examine the dominant perspectives that give rise to environmental degradation, as well as alternative paradigms offered by Green, eco-justice, global south, sustainability, and indigenous movements. Students also engage with political, economic and cultural theories of environmental change. Prerequisite: ENVS 1013 or permission of the instructor.

ENVS- 2113. Ecological Literacy

This course introduces students to key ecological concepts through the study of the Grand Lake Lowlands ecoregion where Fredericton is located, including its biodiversity and ecosystems, the flow of materials, energy and waste from the ecosystem through human systems and back again, and the implications of these flows for sustainability. As they become acquainted with the local ecoregion, students will also explore the literary tradition of nature writing in which writers infuse their intense observations of local natural history with ethical reflections on being an inhabitant, rather than simply a resident, of a place.

ENVS-2123. Food, Science & Sustainability (STS)

This course explores the relationships in our society among science, technology, and food by examining the ways that technology and scientific knowledge have altered food production. In addition, we will look more broadly at how our technical relationship to food has laid the foundations of modern civilization. We will also look at advocates of alternative modes of food production and consumption who claim to redress some of the dilemmas of our modern food ways.

ENVS-2133. Religion and Ecology (RELG)

Many religious traditions display a variety of stances towards the environmental crisis, ranging from indifference to reform. Through critical and comparative study, this course explores religious approaches to ecology in a variety of traditions. Topics may include environmental stewardship, deep ecology, ecoliberation, ecofeminism and ethnic indigenous ecology.

ENVS-2203. Community Economic Development (HMRT) (ECON)

A course which explores the theory and practice of community economic development. It will include the examination of case studies of successful community economic development. The focus will be on the appropriateness and applicability of the model to the Maritimes.

ENVS-2253. The Ethics of Sustainability: Thinking, Acting Green (HMRT, PHIL)

An historically-conscious analysis of various normative stances in environmental ethics integrated with a sustained consideration of how to apply this ethical theory to modern life. Topics may include deep and shallow ecology, biocentrism, eco-feminism, environmental justice, environmental virtue ethics, the ambiguous role of technology in the environmental crisis, the ethics of the green economy, the ethics of green public policy, a survey of various locally-employed environmental initiatives. Recommended preparation: PHIL 2213.

ENVS-2313. Energy and Society (STS)

This course examines energy systems (oil, gas, coal, hydroelectric, nuclear, and renewable) both historically and in the contemporary world, in terms of environmental and economic impacts, theories of technological change in their creation, deployment, and decommissioning, as well as public policy issues.

ENVS-2333. Ecological Economics (ECON)

Starting from the understanding that the economy is a subsystem of the ecological lifesupport system, the course utilizes a transdisciplinary approach (ecological, social and economic) to examine the problems of scale, equity, and efficiency in contemporary human social formations. The course will also discuss the distinctive policy implications of ecological economics. No prerequisite required.

ENVS-2413. Social Dimensions of Climate Change

This course will introduce liberal arts students to the scientific basis of the problem of climate change, the social systems and dynamics at the root of the problem, and the measures necessary to avoid climate breakdown. There is no prerequisite for this course.

ENVS-2443. Environmental Psychology (PSYCH)

Human behaviour is at the heart of a wide range of such environmental problems as global warming, ozone depletion, pollution, species extinction, deforestation, and population growth. This course emphasizes the positive role that psychology can play in supporting those human values, attitudes, and behaviour that will help to resolve these crises and advance the attainment of a sustainable future.

ENVS-3013. Environment and Society III: Policy, Power and Politics (HMRT 3213)

The modernist view is that knowledge leads to rational decisions. From an environmental perspective, however, this idea is seriously challenged. Never has society known so much about ecological and climate change; yet collective responses to these changes have failed to reverse the downward trends. This course examines this dynamic by examining the politics of the environmental crisis, and in particular the power struggles between those resisting change and those promoting alternative visions of a sustainable society. We consider how those alternative visions translate into public policy and how citizens can engage to make this happen. Prerequisites: ENVS 1013 and ENVS 2023, or permission of the instructor.

ENVS-3023. Environmental Praxis (HMRT 3223)

This course explores how alternative visions of the future translate into political action at the international, national, provincial, community, and personal levels. This involves an analysis of alternative theories of the nature of social change. A component of this course may be service learning. Prerequisites: ENVS 1013 and ENVS 2023, or permission of the instructor.

ENVS-3203. Science, Technology and Nature (STS)

In this seminar, students will be asked to question the boundary between culture and nature. Although we will explore how humans have made and remade the "natural" world, often with technologies of almost unimaginable power, we will also consider how natural forces - the sun, the soil, horses, rivers, germs, insects, even gravity - shape our built environments.

ENVS-3213. Media and Politics in Canada (COPP 3033, POLS)

This course will examine the role of media in Canadian politics and government. It will examine the effect of media on policy agenda setting and public opinion, and how political elites seek to use media to advance political goals. Prerequisite: POLS 1013, or permission of the instructor.

ENVS-3413. The Political Economy of Climate Change (ECON)

The course explores the systemic economic and political relationships which have created the problem of global climate change and its associated impacts for humanity. There is no prerequisite for this course.

ENVS-3723. Human Ecology (ANTH)

Since its beginning, anthropology has been interested in the relationship between people and the geographical setting where cultures develop. The history of the discipline is full of contrasting examples in which nature and culture are used, within different conceptual and methodological frames, to explain cultural change, social structure, cultural development, and landscape history, among other topics. The main objective of this course is to explore such different approaches using examples from different biogeographical regions. Prerequisite: None.

ENVS-4003. Capstone Seminar

Fine Arts

In keeping with St. Thomas University's Goals of a Liberal Education, and nurtured by a pedagogy based on creative expression, our Fine Arts courses aim to develop art literacy and a critical awareness of the aesthetic dimensions of everyday life and culture. The courses encourage personal growth and individuality – part of the enduring value of a liberal education.

Fine Arts courses are taught by artists and scholars. Students experience the emotion and practical challenges of art- and music-making, as well as reflect and analytically elaborate on the consequences that these creative and perceptual processes have on the individual and on society. Each artistic discipline uses particular materials and processes, and the artist uses the significant properties of language, matter, and sound to produce and express meaning. Likewise, the receiver of the work of art must also possess knowledge of the materials and processes of art in order to experience aesthetic emotion and understand, analyze, and ultimately appreciate art.

As individuals may have different degrees of experience in the Fine Arts, courses have been selected for their accessibility to students with a wide variety of experience.

Interdisciplinary Minor or Major with a Concentration in Fine Arts; Interdisciplinary Honours with a Concentration in Fine Arts

Upon the approval of the Interdisciplinary Studies Committee, students may also define their own interdisciplinary Minor, Major, or Honours with a concentration in Music, Musical Theatre, the Visual Arts, or Fine Arts. Students interested in exploring this option should consult first with Dr. Martín Kutnowski.

Gerontology is a multidisciplinary field that studies the process of aging across the lifespan. Gerontologists draw on research from a variety of fields that include anthropology, economics, philosophy, physiology, psychology, and sociology, among others. The courses listed below are concerned with issues that concern older persons themselves and range from an examination of health-care needs to the understanding of wisdom. Some courses look at the impact of the way we choose to organize society and define aging socially and how individuals actually experience and understand their own later years. Gerontology uses a variety of theoretical perspectives that shed light on the social, psychological, emotional, and spiritual nature of being human as a background for the investigation of a wide variety of topics.

GERO-1013. Introduction to Gerontology I

This course explores aging from a multidisciplinary perspective. Topics include myths and realities of aging; population aging globally and locally; the intersections of age with gender, ethnicity and class; the physical and psychological aspects of growing older; as well as key concepts in gerontological theory.

Department of History

The History Department at St. Thomas University guides students in critically studying the societies and peoples of the past, as well as the various ways that “the past” is explained in “the present.” Students learn historical content, and discuss the methodological and philosophical issues that inform the exploration of history today, including the difficulty in saying what exactly “history” is or should be.

Chronologically, we offer courses from the first complex societies more than 5,000 years ago up to the present, though we are strongest in the period from circa 1000 C.E. onward. Geographically, we cover everything from small local communities to cities, nation-states, regions such as the Atlantic world, Africa, Europe, Asia or Latin America, and the globe. We offer a world history curriculum that includes World History surveys and a range of courses that explore thematic and transnational histories on a global scale.

The History program may cause you to re-examine your worldview and lead you to ask fundamental questions about yourself, your society and your world. In fact, this is one of our goals. We hope that both the content and presentation of our courses will help produce thoughtful and informed global citizens who appreciate the fascinating and diverse character of the world, past and present.

We are also committed to developing your critical, analytical and communication skills. We do not pretend that we can teach you all the answers, but we can help you learn how to ask and frame good questions. Whether you take one class with us or study to obtain a History Major or Honours degree, and whether you pursue a career in History or not, you will benefit from the skills and content we offer.

Prerequisite: at least 9 credit hours in STS or permission of the instructor.

HMRT-3283. Science, Religion, and Galileo's Trial (STS 3063)

Examines the complex interactions between Western science and the Judeo-Christian religious tradition in the ancient, medieval, and early modern periods culminating with a close study of Galileo's trial by the Inquisition in 1632 to reveal how variable and complex interactions between science and religion have been characterized at different times by conflict, cooperation, separation, understanding, misunderstanding, dialogue, and alienation. Interdisciplinary Major

An Interdisciplinary Major is a course of study which consists of 36 credit hours of course work beyond the 1000 level cutting across disciplinary lines but related by a clear theme or unifying principle.

Students who plan to graduate with an interdisciplinary Major degree must meet with the Coordinator of Interdisciplinary Majors and Honours to identify learning goals and then compose a preliminary course of study with which to approach a potential Program Director. With their Program Directors, students will refine their course of study – their program – in a written proposal. The proposal must indicate:

1. the professor who has agreed to serve as Program Director,
2. two additional professors who have agreed to serve with the Program Director on an advisory committee, and
3. the proposed program, identified by course numbers and titles.

Final approval of each proposed program will rest with the Interdisciplinary Studies Committee. Normally, approval of the program will be sought by the end of the student's second year. Exceptionally, proposals may be entertained as late as the end of the third year. The Coordinator with the Program Director will monitor the student's interdisciplinary course of study at regular intervals during the third and fourth years. Accordingly, the Coordinator will present a written report on the student's progress to the Dean of Humanities and the Registrar at the end of the student's third year and at the end of the first and second semesters of the last year.

The decision to award an Interdisciplinary Major degree will be made by recommendation of the student's advisory committee.

Interdisciplinary Honours

Interdisciplinary Honours is a program consisting of a 57 credit hour course of study, as follows:

2. completion of a 3 credit hour Honours thesis seminar or workshop; and
3. successful completion of a 6 credit hour interdisciplinary Honours thesis.

Students who plan to graduate with an Interdisciplinary Honours degree must meet with the Coordinator of Interdisciplinary Majors and Honours to identify learning goals and then compose a preliminary course of study with which to approach a potential Program Director. With their Program Directors, students will refine their course of study – their program – in a written proposal.

The proposal must indicate:

1. the professor who has agreed to serve as Program Director,
2. two additional professors who have agreed to serve with the Program Director on an advisory and thesis evaluation committee, and
3. the proposed program identified by course numbers and titles.

Final approval of each proposed program will rest with the Interdisciplinary Studies Committee. Normally, approval of the program will be sought by the end of the student's second year. Exceptionally, proposals may be entertained as late as the beginning of the Spring Registration prior to the beginning of the student's final year of study.

Applications will not be considered after the beginning of the student's final year of study. The thesis will be consistent with the approved aims of the student's program, and it will be supervised by the Program Director. The thesis will require the approval of the student's thesis evaluation committee made up of the Program Director and at least two additional professors chosen by the student and the Program Director. A minimum grade of B must be attained for the thesis to count as an Honours credit.

The Coordinator with the Program Director and the student's advisory and thesis evaluation committee will monitor a student's interdisciplinary Honours course of study at regular intervals during the third and fourth years. Accordingly, the Coordinator will report in writing present a written report on the student's progress to the Interdisciplinary Studies Committee at the end of the student's third year and at the end of the first and second semesters of the last year.

The course is flexible with respect to what international experiences will count as part of the course. It is geared towards promoting student exchanges between St. Thomas students and STU-affiliated institutions around the world, but summer internships, student working-abroad programs, and similar endeavors may be considered acceptable examples of international exposure. The final determination of the acceptability of a program will be made by the International Relations Program Director. Irish Studies

Founded by Irish Diocesan priests in the early part of the 20th century, in Chatham, New Brunswick, St. Thomas University has had a long standing spiritual, intellectual and emotional connection with a vital, unique and living Irish cultural tradition. Settled by pre-Famine Irish, the province of New Brunswick boasts one of the oldest indigenous Irish populations in North America. Furthermore, only the province of Quebec accepted more Irish Famine refugees during the Great Hunger of the 1840's, when over 30 000 immigrants passed through the ports of Saint John, Saint Andrews and the Miramichi. Today, St. Thomas University both acknowledges and honours the sacrifice and contribution of these early Irish migrants through many of its university programs; not least among these are: Catholic Studies, Human Rights, Religious Studies, Social Work, Education, English, Criminology, History, Philosophy and Political Science. Most of these programs highlight the social justice concerns of the Catholic Church and the legacy of Irish priests, nuns and laypeople who historically made up the faculty, administration, student body, and alumni of St. Thomas. The Irish Studies program seeks to complement the concerns of these programs while, at the same time, it acknowledges the voices, past and present, of the Irish who first sought to bring this education to their own displaced people as well as to the citizens of the wider world.

The Irish Studies program is an interdisciplinary liberal arts program. It is designed to provide students with the opportunity to explore the heritage, culture, history, religion, politics, literature, fine art, and film of both the people of Ireland, and the communities of its Diaspora.

Mathematics

First-Year Program

Students who seek the intellectual formation or stimulation which mathematics can provide, or who wish to become better acquainted with classical mathematics, or who intend to pursue certain types of theoretical studies in the social sciences or the humanities, should choose MATH 1013. Students who wish to have sufficient mathematical background to pursue studies in the sciences (such as chemistry, computer science, engineering, forestry, mathematics, physics, or statistics) should choose MATH 1013. Since the usual prerequisites to this course are high school algebra, analytic geometry and some trigonometry, students should have grade 12 mathematics.

MATH 1033 is directed principally to students intending to Major in any of the social sciences, elementary education, or business administration. Students should have grade 12 mathematics.

MATH 1103 is designed to introduce students to many different branches and topics of mathematics and to make students more mathematically literate. Students wishing to add breadth to their knowledge of mathematics, particularly those whose areas of interest employ a wide range of mathematical methods, should choose MATH 1103.

MATH-1013. Introduction to Calculus I

A review of analytic geometry and functions; derivatives of algebraic functions; mean value theorem; fundamental theorem of calculus; applications of differentiation, including extreme values and related rates; integration; differentials. Three hours of lecture and one tutorial per week. Prerequisite: grade 12 mathematics or equivalent.

MATH-1023. Introduction to Calculus II

Conic sections; transcendental functions and their derivatives; techniques of integration; areas and volumes; Taylor's theorem. Prerequisite: a grade of C or higher in MATH 1013.

This course is a historical survey of most of the major branches of modern mathematics, including number theory, cryptology, logic, function theory, calculus, geometry, lattice theory, symmetry groups, tiling theory, topology, and knot theory. A recurring theme is the concept of proof and the axiomatic method in mathematics. Students learn how to choose appropriate mathematical models, how mathematicians prove their results, and how a single branch of mathematics can be applied to problems arising across a spectrum of different fields.

MATH-2213. Linear Algebra

Matrices and determinants; vectors in R^2 and R^3 ; real finite-dimensional vector spaces and linear transformations; eigenvalues and eigenvectors; complex vector spaces and inner product spaces; unitary and Hermitian matrices. Prerequisite: MATH 1023 or MATH 1033 or consent of the instructor.

MATH-2513. Introduction to Logic (PHIL)

A lecture course in which students learn how to identify and evaluate arguments drawn from a wide variety of sources. It will develop informal methods such as the identification of argument structure and informal fallacies. It will also develop formal methods that involve taking arguments in English, symbolizing them in a formal language, and evaluating the strengths and weaknesses of the argument's forms. Also covered are basic probability theory, inductive logic, and statistical reasoning.

MATH-2613. Elementary Differential Equations

This is a study of basic solution techniques and applications of differential equations with attention to concepts and computational efficiency. Topics include equations of the first order and first degree, Bernoulli's equations, orthogonal trajectories, linear differential equations, linear equations with constant coefficients, and nonhomogeneous equations. The aim is to acquaint students with the formal language of modern deductive logic and to develop the basic techniques of good deductive reasoning. The course will be of interest to philosophy Majors in particular (especially those who are planning to do graduate work in philosophy), but will benefit anyone who wants to acquire skills in abstract thinking. A good grounding in sentential logic is presupposed. Prerequisite: PHIL 2513 or permission of the instructor.

MATH-3913. Statistics with Applications

Descriptive statistics and representation of single-variable data, descriptive analysis and presentation of bivariate data, probability, probability distributions, sample variability, statistical inferences, linear correlation, and regression analysis. Prerequisite: MATH 1023.

This course takes an analytical look at the invention of pseudo-traditions with a focus on indigenous nations in the context of a worldwide historical problem. Colonial and invader/settler powers destroy, romanticize, omit, distort, and replace indigenous traditions with hoaxes catering to the agendas of colonial/capitalist development. Often, these invented traditions destroy communal spirituality, beliefs, and lifeways, and replace them with "new age" individualist metaphysical beliefs. Case studies include the Scottish kilt, the "medicine wheel" originally based on the eugenic "colours of man," animism, invented oral traditions, bloodlines, "Chief and Council," and cuisine that is installed as a "cultural trait." The course explores the problems of "pan-Indianism," where traditions and ceremony from a specific indigenous nation is expanded into the traditional custom of all indigenous nations, including passing off another indigenous nation's lifeways as a the "traditional government" of another indigenous nation.

NATI-3103. Conversational Mi'kmaq

NATI-3713. Are Aboriginal People Human? Are Aboriginal People Human? Human and aboriginal Rights

The goal of this course is to conceptualize the fundamental justifications for human rights and contrast those with Aboriginal rights. Some relevant questions that this course will explore are: Why do Aboriginal peoples need a different class of rights? Are Aboriginal rights theorized in an equitable manner? What processes are served by conceiving and executing Aboriginal rights as we see them today? What attributes do Aboriginal peoples lack which makes them not fully human?

NATI-3803. Indigenous Cultures and Immigrant Ethnic Minorities

This course examines the different situations and conditions of Indigenous cultures and immigrant ethnic minorities in Canada and the treatment of each by different levels of government. Special attention is given to attitudes, perceptions, and the idea of multiculturalism. Emphasizes the importance of power variables in the examination of immigrant and Indigenous relations in Canadian society. Also examines how immigrant ethnic minorities often form coalitions becoming the dominant culture subordinating Indigenous cultures. Prerequisite: NATI 1006 or SOCI 1006.

NATI-3813. Native Cultural Identity and Cultural Survival (HMRT)

Considers cultural identity and survival within the context of inequality (power, wealth and status). Focuses on the ways in which Native language, group solidarity and community offer cultural completeness, acting as barriers to assimilation. Historic and contemporary Native cultures are presented as dynamic and flexible. Prerequisite NATI 1006 or SOCI 1006.

NATI-3823. Native Peoples and the Canadian Form of Racism (HMRT)

The indigenous peoples of Canada are often included as an afterthought in academic works on racism, which tend to focus on Black-White relations. However, rather than being marginal to understanding the issues of race and racism, the early encounters between European and Native Americans are central to its proper understanding. The issues which arose from Columbus' explorations remain as central to understanding modern racism as they were to the creation of racist ideology in the first place, and the treatment of indigenous peoples in Canada today is shown to be a direct intellectual descendent of the material need to deny the humanity of other human beings.

NATI-3843. Suicide and Indigenous Peoples

Suicide is, and has been for nobody knows how long, rampant in indigenous populations in Canada. Despite well-publicized projects targeting specific communities, none of the interventions have been able to demonstrate any positive effect; if anything, the problem continues to worsen. We examine critically the field of Suicidology as it applies to the Native Peoples of Canada and suggest reasons why efforts to prevent suicide have not paid off. We also explore different kinds of interventions that may be more successful.

NATI-3853. Alcohol, Drugs, and Indigenous Peoples

This course provides an introduction to issues of alcohol and drug use/abuse in indigenous communities (concentrating on Canada for the most part, but including reference to such issues in other indigenous communities worldwide). Traditional uses of substances which alter consciousness are reviewed, as well as the role that the introduction of unfamiliar psychoactive substances played in European expansionism and colonialism. Modern models of addiction and programs for recovery are critically examined and placed within the context of creating a continuing marginalization of indigenous cultures by dominating ones.

NATI-3863. Indian Public Health

Health statistics show Native Peoples in Canada as public health disasters: high rates of diabetes, tuberculosis, cancer, suicide, AIDS, etc. are regularly reported. Standard accounts typically find a way of attributing the problems to Indians themselves (e.g., genetic explanations or lifestyle choices). We critically examine the methodologically-individualistic biases of standard accounts of Indian ill-health and place Native public health issues in an historical and materialist framework instead. Alternative forms of interventions are also considered.

NATI-3873. Introduction to Indigenous/Cultural Psychology

While psychology has an important place in examining and understanding issues of the modern world, it has long been shown to be founded upon certain ideological presumptions that make it inapplicable to and inappropriate for work with indigenous peoples. A different formulation of psychology, which predated the current form but which was abandoned for no substantial reason, has in recent years been offered as a replacement, or at least an alternative, for the current model. We examine this formulation and apply it to psychology issues arising in indigenous peoples/communities of Canada, and show how this re-conceptualization gives rise to substantively different approaches to addressing those issues.

NATI-3903. Native Peoples and the Law: Theory

An analytical overview of the development of European bodies of law during the creation and rise of capitalism, as it began in Europe and continued to the creation of the 1876 Indian Act – a legal history of the legal-political relationship between Native peoples and Europeans. This course will especially focus on the 1823 Johnson v. M'Intosh decision, which gave white Christian empires and their successors the right to take automatic possession of Indigenous territory on "discovery" of the land – The Doctrine of Discovery. The differences between Common Law and Civil Law will be analyzed. The course will conclude with a brief overview of the 1888 St. Catharines Milling and Lumber Co v. R decision in Canada.

NATI-3913. Native Peoples and the Law: Practice

An analysis of court decisions affecting questions of the status of Native peoples, Aboriginal rights, family law, treaty rights (as incorporated into settler nation-state laws), and social relations in Canada and the United States, including the Constitution Act, 1982. After a brief look at the 1876 Indian Act, the course will examine how the Act changed and evolved over time,

in particular with the inclusion of the Inuit and with Bill C-31 on the status of women. Court cases from the 1888 *St. Catharines Milling and Lumber Co v. 10 R.* decision onward through the landmark *Marshall* decision (1999) will be analyzed and discussed.

NATI-3923. Territorial Claims: Theory and Practice

This course examines Indigenous rights pertaining to land and waterway entitlement in North America. Theoretical concepts will be discussed, including the concepts of “land use” and “land occupancy.” The well-documented history of Indigenous land ownership before and during European contact will be analyzed, as well as the attempts by settler nation-states to replace communal Indigenous land ownership to capitalist individual land ownership (fee simple) with Indigenous share holders. The course will include an overview of landmark cases, including the Alaska Native Claims Settlement Act; Delgamuukw and Tsilhqot’in Nation; land claims in Labrador; Miccosukee water rights; and potential Greenland independence.

NATI-3933. Treaties and International Law (HMRT)

The goal will familiarize students with international legal norms and instruments as they relate to Indigenous peoples, including “Indians” in Canada. Treaties between Indigenous nations and European empires/settler nation-states are nation-to-nation agreements, and thus, international law, which will be discussed and analyzed. Various United Nations instruments will be studied. As well, this course will look at the history and law of various locations outside Canada such as: Africa, India, Australia, New Zealand, the United States of America, Norway, central and south America and southeast Asia. This course is designed as an upper year survey course.

NATI-3943. Métis Issues

The goal of this course is to familiarize the student with the Métis people of western Canada. Other “mixed blood” or dual-culture populations will be studied for comparative value. The course will give a historical background on the creation of the Métis Nation and the corresponding political and legal struggles of the Métis People. The Métis were a key player in the expansion of the Canadian state into what is now western Canada. We will examine the benefits and drawbacks that the Métis have experienced in their interaction with the Canadian state.

This is a third- or fourth-year course of study under the supervision of a member of the faculty of Native Studies. It is arranged with the consent of the Chair of the Department and in consultation with the professor. Enrolment is restricted to students who wish to pursue an area of special interest.

NATI-4623. First Nations’ Historiographies: Theory

This course examines First Nations’ historiography in historical periods in Canada and compare standard accounts with facts and perspectives that have been kept out of mainstream sources. Students will be expected to research a particular topic within the context of Indigenous history, identify what has been left out, and explicate why this is likely the case. The contributions of archaeology, cartography, oral history, and ethnohistory will be considered along with the issues of context, perspective and ethics, in researching and writing First Nations’ history. Prerequisite: NATI 1006.

NATI-4633. First Nations' Historiographies: Practice

This course follows NATI 4623 and focuses the materialist Indigenous histories in Canada. Students will continue with their historiographic paper topic in NATI 4623 to incorporate historical research. Students will also learn to access and evaluate a broad variety of sources including archives, oral traditions, and internet sources. The goal will be to develop the capacity for evaluating and reinterpreting standard accounts, and for articulating new understandings, while formulating a publishable-worthy paper. Prerequisite: NATI 4623.

NATI-4996. Honours Thesis

Students are required to complete a thesis proposal preferably by the end of their third year. By the beginning of the second semester of their third year, students should choose a member of the NATI faculty to be their advisor for writing the honours proposals. Advisors will guide the students through the process of developing a workable thesis and building annotated bibliographies on the relevant topics. Students will be asked to formally present their thesis to the Native Studies faculty for discussion and feedback.

Department of Philosophy

“The unexamined life is not worth living.” These words of Socrates, spoken 2400 years ago, have inspired and shaped not only all subsequent lines of philosophical inquiry, but also all critical and scientific discourse through the course of Western history. Our Department embraces this maxim, both in the research work of our faculty members and in our teaching: we strive to familiarize our students with the various ways philosophers throughout history have affirmed and responded, concretely, to Socrates’ claim; and we also strive to help our students engage these various philosophical positions and approaches critically and rigorously, on their own terms.

Courses offered by the Department are intended to acquaint students with both the historical development of philosophical questions and problems and with the ways these are taken up in contemporary philosophical discourse. The Honours Program is designed and recommended for those students contemplating graduate study in philosophy.

The Department’s offerings may, with appropriate permission, be complemented by the resources of the Department of Philosophy of the University of New Brunswick.

I. Introductory Courses

PHIL-1006. Introduction to Philosophy

An introduction, through lecture, reading of original sources, and discussion, to the origins and development of Western philosophy. The first part of the course studies this tradition from its beginnings in ancient Greece through the Christian Middle Ages. Authors read include Plato, Aristotle, St. Augustine, and St. Thomas Aquinas. Themes include the nature of reality; the nature of human being and human knowledge; moral and political philosophy; the existence and nature of God. The latter part of the course continues the survey of developments in Western philosophy, from the early modern period to contemporary discussion. The focus is on rationalism, empiricism, idealism, and the reactions these provoked. For the purposes of prerequisite and degree requirements, this course is the equivalent of PHIL 1013 and 1023.

PHIL-1013. What is Philosophy? (Historical Introduction 1)

To do philosophy is to reflect critically on our underlying beliefs (e.g., about reality, knowledge, freedom, responsibility) and to modify whatever doesn't stand up to scrutiny. Whether we realize it or not, the very way we think is shaped by past thinkers -- which is why studying philosophy's history is a crucial part of doing philosophy. In this course, we will focus on Ancient and Medieval thinkers as we strive to evaluate our views critically. This course has no prerequisite.

PHIL-1023. What is Philosophy? (Historical Introduction 2)

To do philosophy is to reflect critically on our underlying beliefs (e.g., about reality, knowledge, freedom, responsibility) and to modify whatever doesn't stand up to scrutiny. Whether we realize it or not, the very way we think is shaped by past thinkers -- which is why studying philosophy's history is a crucial part of doing philosophy. In this course, we will focus on Modern and Contemporary thinkers as we strive to evaluate our views critically. This course has no prerequisite.

PHIL-1033. Atheism: An Introduction to Philosophy

This course is an introduction to philosophy focusing on atheism. Students will be introduced to the current debate, but will also consider what the great minds of the past can tell us about the existence or non-existence of God. We will draw on both historical and contemporary sources, developing skills of philosophical analysis in connection with a single, hotly disputed topic. This course has no prerequisite.

PHIL-1043. Free Will: An Introduction to Philosophy

This course is an introduction to philosophy focusing on the problem of free will. Students will be introduced to the current debate, but will also consider what the great minds of the past can tell us about the possibility or impossibility of acting freely. We will draw on both historical and contemporary sources, developing skills of philosophical analysis in connection with a single, hotly disputed topic. This course has no prerequisite.

PHIL-1053. Myth and Reason: An Introduction to Philosophy

This course is an introduction to philosophy focusing on the opposition between myth and reason. Students learn the skills of philosophical analysis by studying one topic in detail. Questions explored may include: How are myth and reason different? Are they opposed? What are the limits of reason? Can myth help reason? Can reason refute myth? What role does authority play in myth and reason? This course has no prerequisite.

PHIL-1063. Life and Death: An Introduction to Philosophy

This course is an introduction to philosophy focusing on philosophical questions related to life and death. Students learn the skills of philosophical analysis by studying one topic in detail. Questions explored may include: What are life and death? Does anything persist after death? If so, what would this be? Why are some moral questions associated with life and death? This course has no prerequisite.

PHIL-1073. Robot & Animal Ethics: An Introduction to Philosophy

Should we have sex with robots? Is it okay to use a robot prostitute? Can we force them to serve us or use them in warfare? And what about animals-do they have rights? Should we eat them, experiment on them or stick them in zoos? These are some of the fascinating and strangely important questions to be addressed in this course. We will learn how to do philosophy by thinking about the social, psychological and ethical implications of our relationships with these two very different kinds of creatures.

Successful applicants will normally meet the following criteria:

- a. completion of Psyc 1013 and Psyc 1023 (or their equivalents);
- b. completion of Psych 2013 and Psyc 2023 (or their equivalents), with a minimum grade of B and no grade lower than a C+ in any Psychology course;
- c. completion of Psyc 3933 and Psyc 3943 (or their equivalents), with a minimum grade of A- and no grade lower than a C+ in any Psychology course;
- d. indication of interest in pursuing a research-based graduate degree, or a career involving research skills, following graduation from St. Thomas University;
- e. indication that two or more full-time faculty members in the Psychology Department have expressed interest in supervising the student in a thesis project.

Important: Students planning to apply to the Honours Program must discuss a course plan that adequately prepares them for the Honours thesis, and subsequent career goals, as early as possible in their program, with either the Department Chair or some other full-time faculty member.

2. Sequence of Activities for Prospective Honours Students

- i. Initial interview with full-time faculty members (in the Fall term or in January).
- ii. Letter to the Chair of Psychology by January 31st of the academic year before one plans to begin the Honours program, expressing interest in the Honours program. This letter should include: a) a description of your reasons for pursuing an Honours degree and your general areas of interest, b) indication

- that two or more full-time faculty members in the Psychology Department have expressed interest in supervising you in a thesis project, and c) a summer contact address and telephone number.
- iii. Pre-registration in PSYC 4996 (at the end of the academic year in which you applied to the Honours Program).

Introductory Course

RELG-1006. Introduction to Religious Studies

A thematic, issues-oriented introduction to the study of religions. The data to illustrate these themes and issues are drawn from the religious traditions of the world. Fundamental to the course methodology is the identification of focal questions. Science and technology are among the most powerful forces transforming our world today. They have changed social institutions like work and the family, produced new medicines and foods, influenced economies and international affairs, and have the capacity to alter and destroy human life as well as the natural environment itself. These forces come with a vast and complicated array of ethical and social dilemmas that affect both our daily lives and our world. An individual cannot be considered well educated nor can they participate in civil society as an informed citizen without substantial knowledge of what science and technology are and how they interact with society.

From the perspective of the humanities and social sciences, STS uses a critical, balanced, and interdisciplinary approach, and promotes neither unbridled enthusiasm for, nor an activist rejection of science and technology. While science and technology can be appreciated for their valuable contributions, it is also important to acknowledge the range of negative and unintended consequences that often follow in their wake.

Students with a background in STS will bring a unique social and ethical perspective to pivotal debates in the 21st century including the relations between science and gender, science and religion, technology and social values, the politics of technological innovation, the impacts of disease and natural disasters on society, or whether nano-technologies will change the very nature of what it means to be human.

Students may obtain a Minor, Major or Honours in Science and Technology Studies. The Minor, Major and Honours requirements are stated below.

Honours

In addition to the requirements for a Major in STS, an Honours degree in STS requires a total of 57 credit hours (21 credit hours beyond the requirements for a Major in STS). The details for an Honours in STS are as follows:

- (i) all of the requirements for a Major in STS
- (ii) the following seminars:
 - STS 3433 Writing Workshop
 - any 6 credit hour courses beyond the 2000-level that complement the student's focus of study (as approved by the Director of STS)
- (iii) 6 credit hours in either Methods or Theory
- (iv) STS 4006 Honours Thesis

Major

36 credits hours are required for a Major in STS. These include required courses in the core theoretical concepts in the discipline of STS, and at least 6 credit hours in science. Students can then follow their own particular interests and complete the Major requirements drawing from a range of 2000- and 3000-level courses in STS and from courses in other disciplines, recognized as STS electives. The details are that the Major in STS must include:

- (i) the following core STS courses:
 - STS 1003. Science, Technology & Society I

STS-2623. Human Anatomy (BIOL)

This course will provide students with an examination of human anatomy with emphasis on the structure and function of the skeletal, muscular and nervous systems. This course is clinically oriented, in that it uses case studies to emphasize the importance of fundamental knowledge of anatomy for clinical work. The emphasis in this class is

on learning and understanding rather than on memorizing; the class is structured to foster the retention of workable knowledge. Prerequisites: None.

STS-2703. History of Life Sciences

This course examines the historical background and development of the life sciences from the ancient Greek world to the present. Particular attention will be focused on the fields of biology, ecology, medicine and genetics.

STS-2903. The Politics of Science

This course introduces students to the many ways in which science interacts with political interests. This includes the ways in which political considerations from outside of science and elected officials influence the development of science. It also includes the ways in which political interests from within science itself control the development of science and how scientific concerns often guide the development of public policies made by politicians.

STS-2913. Communicating Science In Democracy

In modern democratic societies, the sciences are dominant forces that affect everyone. This course examines how critical scientific issues are communicated to (or with), members of the public, government, and within the scientific community itself. The basic question we will be exploring is: What science communication strategies work, what don't work, and most importantly, why? This course explores the relationship between the communication of complex scientific issues and democracy.

STS 3003 - Scientific Reasoning

This course provides students with the tools needed to pursue research in Science and Technology Studies. The course will typically cover the basic elements of a traditional conceptual framework used by scientists to describe their work, including the concepts of prediction, testing, theoretical models, and scientific change over time, as well as the basic elements of alternative theoretical frameworks. Some mathematical content. Prerequisite: at least 9 credit hours in STS or permission of the instructor.

STS-3013. Controversies in Science and Technology

This course explores controversial issues involving science and technology in order to investigate the underlying dynamics of science and technology themselves since it is during controversies that the normally hidden social dimensions of techno-science become more explicit. Various controversies, such as climate change, transgenic foods, biofuels, and chemical additives in food are studied to reveal the rhetorical tools, underlying assumptions, and social, political, economic, and philosophical struggles embedded within science and technology. Prerequisite: STS 1003.

STS-3043. Heaven and Earth: Astronomy and Matter Theories from the Ancient World to the Scientific Revolution

This course explores theories explaining the structure and material makeup of the universe from ancient times to the Scientific Revolution. Technical details of astronomy and matter theories are examined in philosophical, theological, and medical contexts. Topics include: the shift from an earth-centered to a sun-centered astronomy, medical astrology, the shift from ancient atomism to mechanistic theories of matter, and the implications of postulating empty space in the macro and micro universe.

STS-3063. Science, Religion, and Galileo's Trial (HMRT 3283)

Examines the complex interactions between Western science and the Judeo-Christian religious tradition in the ancient, medieval, and early modern periods culminating with a close study of Galileo's trial by the Inquisition in 1632 to reveal how variable and complex interactions between science and religion have been characterized at different times by conflict, cooperation, separation, understanding, misunderstanding, dialogue, and alienation. Prerequisite: STS 2243 or permission of the instructor.

STS 3103 - Science, Technology & Society III

This course further develops an integrative understanding of the core theories and various branches of the dynamic field of Science and Technology Studies (STS) through an advanced study of the theoretical roots and current trends in the discipline. Students will develop skills in critical thinking, research, as well as written and oral presentations by applying theoretical perspectives to different case studies. Prerequisite: STS 2103.

STS-3163. Contemporary Perspectives on Science and Religion

This course examines the recent debates over the relation between science and religion. A resurgence of interest in these debates has been sparked by developments in the sciences, particularly in physics and genetics, as well as by a newly-emerging understanding of what science is. The central questions include whether science and religion are compatible and whether recent developments in the sciences give new answers to religious and theological questions. Readings will represent all sides of these debates. Prerequisite: STS 2253 or permission of the instructor.

STS-3203. Science, Technology and Nature (ENVS)

In this seminar, students will be asked to question the boundary between culture and nature. Although we will explore how humans have made and remade the "natural" world, often with technologies of almost unimaginable power, we will also consider how natural forces - the sun, the soil, horses, rivers, germs, insects, even gravity - shape our built environments.

STS-3303. Sex, Science & Gender (HMRT 3263)

This course examines how scientific research, in the late 19th and 20th centuries, has shaped common conceptions of sex behaviour and how this scientific knowledge has also been shaped by cultural conceptions of gender roles and "normal" behaviour.

STS-3413. God, Nature, and Charles Darwin

This course examines the complex interactions between theories of biological evolution and Christianity. Beginning with ancient Greek theories of how species arise, the course will focus primarily on the social, political, economic, techno-scientific, and religion contexts of the 19th century when ideas of species transmutation or evolution were discussed. Pre-requisite: a minimum of 9 credit hours beyond the 1000-level.

This course enhances skills in writing and oral presentations within the context of major themes in the discipline of STS. It is recommended for students planning to undertake honours studies in STS and 4000-level seminars as well as for students wishing to pursue graduate studies or careers requiring accomplished written and oral presentation skills. Pre-requisite: permission of the instructor.

STS-3503. Feminism and Techno-Science (WS/GS) (HMRT 3273)

Examines a variety of feminist perspectives on science and technology which suggest that scientific authority (particularly in the biological and life sciences) rationalizes and normalizes gender stereotypes and inequalities, and also marginalizes women from its institutions. The content and positions of various perspectives (as well as counter-arguments) are studied for their political, philosophical, and epistemic assumptions.

STS-3533. Science and Scientific Knowledge

This course examines the study of science and scientific knowledge from a sociological perspective. It focuses on the effort of the Edinburgh School to provide a materialist resolution to the debate between positivist and relativist epistemologies.

This course will examine science from the perspective of philosophy. Topics will include the historical relation between science and philosophy, the differences between the social and the physical sciences, the nature of scientific change in history, the role of values in science, the reality of 'theoretical' objects of science, and feminist alternatives to traditional scientific research. Examples will be drawn from both the physical and the social sciences. Prerequisite: at least 9 credit hours in STS or permission of the instructor.

SCWK-3843. Suicide and Indigenous Peoples (NATI)

Suicide is, and has been for nobody knows how long, rampant in indigenous populations in Canada. Despite well-publicized projects targeting specific communities, none of the interventions have been able to demonstrate any positive effect; if anything, the problem continues to worsen. We examine critically the field of Suicidology as it applies to the Native Peoples of Canada and suggest reasons why efforts to prevent suicide have not paid off. We

also explore different kinds of interventions that may be more successful.

This course provides an introduction to issues of alcohol and drug use/abuse in indigenous communities (concentrating on Canada for the most part, but including reference to such issues in other indigenous communities worldwide). Traditional uses of substances which alter consciousness are reviewed, as well as the role that the introduction of unfamiliar psychoactive substances played in European expansionism and colonialism. Modern models of addiction and programs for recovery are critically examined and placed within the context of creating a continuing marginalization of indigenous cultures by dominating ones.

SCWK-3973. Introduction to Narrative and Narrative Analysis (SOC1, GERO, PSYC, ENGL)

Framed around three key approaches to narrative this course will provide students with the basis on which to develop their understanding of narrative and their skills in narrative analysis. The three approaches are: the narrative study of lives; the narrative analysis of texts; and, the analysis of narrative dynamics. Through these approaches students will be introduced to the work of key narrative thinkers. The course, in content and delivery, reflects the interdisciplinary nature of narrative.

A survey course that introduces students to the discipline of sociology with particular reference to Canadian Society. This course examines theories and research concerning the nature of social order and conflict in industrial society; the relations between important structures or elements of society, including the economy, family, education, religion, complex organizations, racial and ethnic groups, and the dynamics of social change. The second term focuses on the contemporary structure, problems, and issues of Atlantic Canadian society.

SOCI-2123. Introduction to Sociology of Globalization

Introduction to Sociology of Globalization explores social conditions characterized by global economic, political, cultural, and environmental interconnections and flows that cross existing political borders. Therefore, it challenges our existing conceptualization of an international world of borders and nation states. The course explores the concept of globalization and its relevance to our lives. Types of empirical topics covered include contemporary global inequalities; environmental problems; transnational communities and families; transnational migration; the effect of globalization on gender, race, ethnicity, and religion; transnational social movements; and the women's movement. Prerequisites: SOCI-1006. Introduction to Sociology or instructor's permission.

SOCI-2143. Interaction and Everyday Conduct

Studies in conversation analysis show that in their everyday human interaction people fine-tune their actions in co-ordination with others. Using practical, everyday reasoning, the members of society produce and sustain the ongoing orderly details of everyday life. The course will teach students to identify and analyze how people orient to and build up the numerous micro-structures of social interaction that make up daily life in the family, amongst friends, at work, in medical encounters, in the media, and in other institutions in society. Materials will be drawn from published observations, recordings and transcripts of everyday human interaction. Students will be taught how to begin making their own empirical observations and analyses. Controversies about the influence of social structure and social context on interaction will be examined.

SOCI-2213. Society and Ecology (ENVS)

This course is an introduction to the sociological study of environmental problems and the issues they raise, using C. Wright Mills' notion of the 'sociological imagination.'

SOCI-2223. Sociology of Time

SOCI-2323. Sociology for Cyborgs: The Social Organization of the Internet

This course is a critical introduction to the social, political, economic, and cultural organization of the Internet. The purpose is to provide media literacy tools to penetrate beneath its commonly experienced surfaces. The focus is on "who organizes the Web": its commercialization and the potential for democratization of its "users." An important goal is discovering "the academic Web" as a resource for both Liberal Arts education and lifetime learning.

SOCI-2333. The Sociology of Chinese Women in Literature and Film

This course explores the sociology of women and China in recent literature and film, particularly in recent work by women in China and of those Chinese origins in Western countries. Topics include 20th century migration, settlement and early family experiences. The novels focus on three generations of families and illustrate the traditional expectations for women within China and in North America. The films include recent works by Chinese filmmakers

that comment on women's place in pre-revolutionary and modern society.

SOCI-2416. Inequality in Society (WS/GS)

This course explores existing patterns of social inequality and debates concerning the possibility and desirability of greater equality. Taking a theoretical and historical focus, this course examines the changing nature of inequality in contemporary Canadian society in the context of globalization. Throughout, we develop our understanding of how different forms of inequality - particularly social class, gender and race - intersect. One section of the course may have a service learning requirement, where students engage in volunteer work in the community, and then reflect upon their experiences through reading, writing, and discussion.

SOCI-2423. Social Problems I - Sociological Perspectives (WS/GS)

The various perspectives used by sociologists to examine social problems will be described and evaluated. Concrete social problems will be used as examples of these perspectives.

SOCI-2433. Social Problems II - Canadian Social Problems (WS/GS)

Several current Canadian social problems will be examined from the perspectives used in SOCI 2423. These problems include: poverty, minorities, Canadian identity, the effects of urbanization, and technology, etc. Prerequisite: SOCI 2423.

SOCI-2443. Racialization, Racism & Colonialism

This course explores the conceptual, theoretical, and methodological understandings most relevant to the sociological study of "race," racialization, racism, and colonialism. We give particular attention to critical decolonial thinking on race. We examine the process of racialization, through which "being white" becomes the normative standard of "just being human." We contextualize how the creation of whiteness as an identity-based entitlement has led to social division and oppression. We draw on the experiences of diverse groups of Black, Indigenous, and other People of Colour (BIPOC) in Canadian and global contexts. We begin with the premise that BIPOC share a common history in terms of dispossession, discrimination, and oppression, but also pursue a range of different struggles and dreams in relation to their lands and nation-states. We explore racialization of bodies in contemporary culture to probe a series of assumptions and theories about race, racism, and colonialism in both academic and popular thought.

SOCI-2513. Sociology of Communication

This course considers the mass media (principally print and electronic), its place in, and impact upon Canadian society. Various perspectives and related research are considered with respect to the control and ownership of the media, the social organization of the production of news, facts, statistics, and other messages; and the themes expressed in popular culture as conveyed by the media. Underlying concerns are the social construction of what-is-taken-to-be reality and the language that is used in the conveying of messages.

SOCI-2523. Sociology of Aging (WS/GS, GERO 2113)

This course will explore the comparative situation of older women and men in different cultures and different historical periods within Western societies. The cultural and social-structural determinants of their changing status will be examined through alternative theoretical perspectives within sociology. The social construction of 'elderly' as a status will be explored through how older people are perceived, described, talked about, and interacted with, in everyday behaviour and how these relations may be 'negotiated' by the elderly themselves. The political economy of aging focuses upon disparities of income, and the determinants and effects of poverty on the lives of older people.

SOCI-2543. Sociology of Religion

This course focuses on the relations between the beliefs and institutionalized practices that people hold sacred, and contemporary community life. Students explore the contradictory trends of mass secularism and the rise of religious fundamentalism, and the practices through which people collectively mobilize to sustain, challenge, and change religious identities. The question raised by Durkheim is explored: If religion expresses and reinforces community solidarity, how can modern societies accommodate religious diversity? A further question is: How are religions implicated in political struggles, the women's movement, nationalism, and war?

SOCI-2563. Sociology of Sport

This course unpacks issues associated with sport in North America. Students are asked to critically engage with sport practices as they intersect various social phenomena including identity, nationalism, the body, colonialism, and the family. Students examine how power operates through the practices associated with sport and consider the potential, and consequences, of using sport for social change.

SOCI-2613. Sociology of Gender (WS/GS)

This course focuses on particular aspects of the social processes that shape, and are shaped by female and male social roles such as gender and power, gender and social structures of work, and feminist social movements.

SOCI-2623. Gender in the Global South: A Political Economy Perspective (ECON 2303) (WS/GS)

SOCI-3033. Seminar in Research Strategies

This course helps students learn what original research entails from its initial conception to its completion. It highlights the techniques and strategies successful researchers use to develop their research questions; select an appropriate research design and data collection method(s); meet university research ethics requirements; ensure the research is socially relevant and completed in a timely manner. Students are expected to design a research project and write a proposal outlining their plans. This exercise allows students to gain an appreciation of the research design process and the components of research. For some students the proposal will be the initial work towards an honours thesis; for others it will be a model for the preparation and planning of research in other courses or outside academia. After taking the course students should feel prepared to undertake research projects in any academic, government, research, or policy setting.

SOCI-3043. Qualitative Research Methods

This course is intended for 3rd-year Honours students who are considering using qualitative analysis in the research for their Honours thesis. It will address theoretical foundations of qualitative analysis, research ethics for qualitative researchers, and provide hands-on experience in developing a research question and collecting and analyzing data using basic qualitative techniques including observation, in-depth interviewing, and unobtrusive measures.

SOCI-3113. Political Sociology

The focus of this course is on the type of political system known as liberal democracy. Particular emphasis is placed on the historical genesis of liberal democracy, on its structural dynamics, and on the role of the working class within the system. The examination includes an analysis of the sources of stability and cleavage governing the development of liberal democracies. Finally, the functioning of liberal democracies is contrasted with that of communist political systems.

SOCI-3123. Social Movements, Social Activism & Social Change

This course explores conceptual, theoretical and methodological understandings of social movements and activism as an organized way of effecting social change. It also examines a series of historical and contemporary case studies within Canadian and global contexts. Students analyze social movements or activism for social change in their local and/or global communities.

SOCI-3133. Sociology of Work

The sociology of work studies the changing nature of work from pre-industrial to contemporary times. It is concerned with how our work activities and occupations shape our everyday lives, how work is gendered and the implication of technological innovation on individual workers and societal processes. Different forms of work, occupational hierarchies and social relations of production are key themes explored within this course.

Emphasis is placed on the historical emergence of taken for granted themes in modern culture. This will enable students to better appreciate current developments in culture and in our economic system.

SOCI-3293. Animals & Society

In Sociology we study human society. Humans, however, have always lived in relation to other non-human animals, and these relations and these animals have in fact been central to human society. Theoretical concepts and issues, such as the position of women within capitalism, patriarchy, sexuality and reproduction, formal and informal control, are addressed.

SOCI-3413. Employment Equity Policy and Gender Inequality at Work (WS/GS)

This is an advanced course on the organization of gender inequality in the labour force. It begins by studying how gender segregation is organized in the occupations of teaching, clerical work, and other professions. SOCI-3513. Sociology of Education

This course focuses on the nature of the relationship between school systems and the broader societies of which they are a part. This is done with two purposes in mind: (1) to determine both the structural configuration and the functions of education in contemporary society and (2) to demonstrate the effects of this relationship on the internal functioning of schools. A variety of theoretical perspectives on the conceptualization of the school-society connection are examined.

It includes the social functions and uses of music ranging from rituals and ceremonies to its political-economic organization in cultural industries. Forms of music, such as the functional harmony vs. the Afro-American traditions, area related to forms of society. The practices of improvisation and maintaining synchrony will be examined principally in both classical and jazz contexts.

SOCI-3573. Sociology of Art and Culture (FNAR)

Employing both classical and contemporary sociological perspectives, this course explores the nature of art in society by looking at how art objects are produced, distributed, and consumed. Theoretical perspectives are related to historical and contemporary examples from a range of artistic media (e.g., pictorial art, film, photography, literature, and music) to expose the interplay between art and society. The relationship between the fine arts and popular culture are examined, as well as the role of technology in the various arts.

SOCI-3693. Discourse and Society

Discourse analysis is the study of language in use, and is thus distinguished from approaches that treat language formally and structurally, as an abstract system of signs and symbols. We examine instances of written and spoken language that occurs in a wide range of contexts, including: everyday conversations among friends, encounters between professionals and clients, the activities of creating, disseminating and consuming mass-mediated texts, and governmental and corporate settings where policies are established, monitored and changed. Combining a theoretical and practical orientation, the course draws primarily on the work of sociologists, but also includes that done by scholars in disciplines such as sociolinguistics, psychology, anthropology, semiotics and literary studies. A basic premise of the course is that in our so-called information or knowledge-based global society, a critical awareness of discursive practices is becoming a prerequisite for democratic citizenship.

Basic theories of gender and sexuality are explored before critically examining the same theories in practice through case studies. This course will encourage students to critically examine the diverse factors that contribute to how sexuality is conceptualised and represented. Multiple perspectives, including cultural, psychosocial, and biological, will be considered. Women's rights, gender sensitivities, and feminist movements both inside and outside the churches have inspired lively and complex debates within contemporary Christian theologies. By deconstructing, revising and rebuilding basic issues in theology on the basis of women's experiences and gender analysis, a substantial range of feminist theologies has

emerged. This course will explore theological themes and interests central to the diversity of feminist theologies.

SCWK-3213. Women and Social Work*

This course is designed to enable students to examine critically first, the oppression of women in our society, in particular as consumers of social services; second, the developing literature, theory, and practice of “feminist counselling” as a significant new approach to working with women; and third, the position and status of women within the social work profession. *Please check with professor for prerequisites.

The ways in which criminal and family law influence gender relations in society will be analyzed, including the implications of legal intervention and non-intervention in family relations. Sex-specific and sex-related legislation, concerning such issues as sexual harassment, rape, pornography, and affirmative action, will also be examined. Theoretical concepts and issues, such as the position of women within capitalism, patriarchy, sexuality and reproduction, formal and informal control, will be addressed.

SOCI-3413. Employment Equity Policy and Gender Inequality at Work

This is an advanced course on the organization of gender inequality in the labour force and the policies aimed at creating equal opportunities for women. We begin by studying how gender segregation is organized in the occupations of teaching, clerical work, and other professions. Secondly, the course examines, from a sociological perspective, the federal and provincial government policies which are aimed at the equal and fair treatment of individuals regardless of sex: pay equity legislation, employment equity programs, contractual provisions and human rights legislation on fair employment practices.

Examining specific debates from the fields of feminist research, Indigenous methodologies, and critical race theory, students will gain new understandings in the various ways research can both reproduce and challenge operations of power and privilege. This course offers students the opportunity to engage in debates around these methodologies as they consider how to do research for social change.

STS-3303. Sex, Science & Gender (HMRT)

Examines a variety of feminist perspectives on science and technology which suggest that scientific authority (particularly in the biological and life sciences) rationalizes and normalizes gender stereotypes and inequalities, and also marginalizes women from its institutions. The content and positions of various perspectives (as well as counter-arguments) are studied for their political, philosophical, and epistemic assumptions. Prerequisite: at least 9 credit hours in STS or permission of the instructor.

A. Course Regulations

All academic decisions affecting a student's work in course shall be made by the individual faculty member teaching that course, subject to the concurrence of the appropriate Dean.

The following general regulations apply with regard to class attendance, withdrawal from course, dismissal from course, and repeating a course.

Class Attendance and Class Cancellation

1. Class Attendance

Regular attendance is expected of students at all classes. The responsibility for meeting this obligation rests with the student. It is the responsibility of students to notify their instructors when they expect to be, or have been, absent from class for any justifiable reason. Students should consult the written course outline provided by the instructor at the beginning of each course for the specific details of the attendance requirements in the course. It is the prerogative of the instructor to determine when a student's scholastic standing in any course is being affected adversely by repeated absences. The Registrar's Office may, in exceptional circumstances, issue a notice to instructors on behalf of a student if that office is informed by the student, student's parent, physician, counsellor or someone with knowledge of the student's health or emotional status that the student's attendance and/or ability to focus on academic work has been compromised. In such cases the appropriate documentation is held at the Registrar's Office.

Students may use laptops and related electronic note takers responsibly within the classroom for taking notes. Laptops and other electronic devices are not to be used in class for activities unrelated to the class.

Students whose use of electronic devices distracts other students and/or the instructor may be required by the instructor to discontinue use of those devices.

2. Class Cancellation

Courses at St. Thomas University are scheduled to provide students with approximately 150 minutes of instructional time per week. Instructional time includes, but is not limited to, the following: lectures, discussions, seminars, tutorials, laboratory sessions, library instruction, field trips, audiovisual and multimedia presentations, computer-assisted learning, and any other organized learning activity with the instructor available.

As students have a right to expect that full instructional time will be provided, scheduled class meetings will be maintained throughout the academic year. Class cancellations or shortened classroom periods should only result from legitimate personal or professional reasons.

The decision to cancel classes for inclement weather will be made by the University. The University administration will undertake to notify faculty and students of this decision.

If a class must be cancelled because of an unexpected occurrence such as the illness of the instructor, the instructor will notify the Vice-President (Academic & Research)'s secretary who will attempt to notify the students by posting the class cancellation on www.stu.ca. The instructor will also notify the Department Chair.

If an instructor may reasonably foresee his or her absence from a scheduled class, the prior approval of the appropriate dean is required. These requests will be in writing, with a copy to the Department Chair, and should include the dates of the instructor's planned absence, the

reasons for the instructor's absence, the alternative activities which will take place during the absence or, if a class or classes are to be cancelled, the make-up activities which have been planned for the students. It is the instructor's responsibility to inform the students of these class cancellations and the alternative and/or make-up instructional activities which have been planned.

In the event that the sum of all class cancellations for a particular course exceeds five hours in one semester, it is expected that the Department Chair will meet with the instructor involved to review the situation and to plan alternative and/or make up instructional activities for the students enrolled in the course.

3. *Written Assignments*

Written assignments that have not been returned during regular class periods will normally be kept by the professor for one semester following the completion of a course. Students who wish to pick up their written work should arrange to come for it during a professor's regular office hours.

Exit from Aquinas Program

Students who wish to exit from the Aquinas program at Christmas may petition the instructors to have credit awarded for the work done in Semester 1. The petition must be received by December 21.

The instructors will make a decision to award 0, 3, 6, or 9 credit hours for the work performed to that point. The decision shall be communicated to the student by the first day of classes in Semester 2.

In the case of 3 credit-hour courses, students will receive credit for any courses passed and a final grade will be assigned by the instructor. In the case of 6 credit-hour courses, any credits conferred shall appear on the transcript either as general credit in the designated discipline (with no grade) or as "unassigned arts" credit (with no grade).

A student who wishes to appeal a decision as to the number of credit hours to be awarded shall lodge that appeal with the appropriate dean by March 1. The appeal will be heard by the Aquinas program Committee.

Withdrawal from Course

A student may withdraw from a course, with no academic penalty, by withdrawing before the deadline as outlined by the Registrar's Office. In order to withdraw from a first or second-semester course without academic penalty, such withdrawal must be completed within eight weeks after the first day of lectures in each semester. In order to withdraw from a full-year course without academic penalty, such withdrawal must be completed within two weeks of the beginning of second semester courses.

The academic penalty for withdrawal after these dates, except for substantial medical or compassionate reasons, will be to have WF (valued at 0 grade points) recorded on the student's transcript of marks.

Dismissal from Course

A student may be required to withdraw from a course for repeated absences. No action to dismiss may be taken without due warning. A letter of warning is to be issued by the instructor with a copy to the Registrar's Office.

No final decision to dismiss may be taken without consultation with the appropriate dean.

Notice of dismissal from a course must be in writing.

Repeating Courses

Repeating courses is permitted; however, where the first course was completed with a passing grade, no further credit toward the student's program is granted upon successful completion of the repeated course. The new grade does not replace the old grade on the student's transcript of marks.

There may be circumstances where the student will be denied permission to retake a course. The student's appeal of this decision is to the Senate Committee on Admissions and Academic Standing (see H. Appeal Procedures).

B. Evaluation and Grading

For every course offered at St. Thomas the professor is to provide to the students at the beginning of the course the following written information: (1) method of evaluation; (2) course requirements and value towards the final grade. Those values can only be altered in exceptional circumstances and with the consent of at least 75% of the class. When planning course evaluations, the professor should ensure students will receive at least one graded assessment prior to the date on which students can drop courses without academic penalty as outlined in the academic calendar. Because competent, sensitive, and accurate use of language has always been, and continues to be, the hallmark of an educated person, it is St. Thomas University's policy that in the evaluation of any piece of writing, submitted in any course in the University, form as well as content (insofar as they can be separated) will be considered. Students should expect to do a substantial amount of writing in any course, and expect as well to have papers which are clearly below acceptable levels of literacy returned for revision. The method of evaluation of students in a course and the actual grading of a student's performance are essentially the responsibility of the course instructor, subject to the following regulations.

Evaluation of Students' Performance

1. Method of Evaluation

For every course offered at St. Thomas the professor is to provide to the students at the beginning of the course the following written information: (1) method of evaluation; (2) course requirements and value towards the final grade. When planning course evaluations, the professor should ensure students will receive at least one graded assessment prior to the date on which students can drop courses without academic penalty as outlined in the academic calendar. Because competent, sensitive, and accurate use of language has always been, and continues to be, the hallmark of an educated person, it is St. Thomas University's policy that in the evaluation of any piece of writing, submitted in any course in the University, form as well as content (insofar as they can be separated) will be considered. Students should expect to do a substantial amount of writing in any course, and expect as well to have papers which are clearly below acceptable levels of literacy returned for revision.

2. Scheduling Essays and Class Tests

A minimum notice of six weeks on the part of the professor is required for any major essay or term paper. No class test or examination (oral, written or "take-home") is to be held during the last fifteen days prior to the first day of regular examinations without the permission of the Registrar's Office. The petition for any such test shall be given in writing to the Registrar.

3. Final Examinations

The value assigned to the final examination will normally not exceed sixty percent of the final grade. A professor may change this percentage for a given course with the approval of the Chair of the Department.

4. *Scheduling Final Examinations*

Examinations are held each year in December and April. The examination schedule is determined by formula and announced in advance of the start of classes. In December, Christmas examinations are held in six-credit hour courses, and final examinations are held in first-semester, 3 credit-hour courses. In April, final examinations are held in 6 credit hour courses and second-semester, 3 credit hour courses. No student is required to write more than two examinations in a twenty-four hour period. The student may request that an examination be moved to a date set aside for those make-up examinations after the established examination period. Such requests shall be directed to the Registrar's Office. The Registrar's Office will determine which examination will be moved. The date and time set for the return of completed take-home examinations shall normally coincide with the scheduled examination timetable.

5. *Special Final Examinations*

Students seeking to write special final examinations for reasons of proven illness or compassion and in the case where they are scheduled to write more than two examinations in a twenty-four hour period, must apply to the Registrar's Office. If approved, the Registrar's Office will notify the professor and request an appropriate alternative evaluation arrangement

Grading System

1. *Grade Point Average*

In calculating the grade point average, a letter grade in a 3 credit-hour course is assigned only half the grade points that are assigned to the same letter grade in a six credit-hour course.

The "annual grade point average" is used to determine the academic standing of each full-time student. This average is calculated on all courses taken during the academic year. (September - April) Mid-term results in 6 credit-hour courses are not recorded on the student's transcript.

Students should note that the final grades of repeated courses will be counted in the annual GPA but the course credit will be counted only once towards the minimum number of credits required for a degree.

A student accepted as a transfer student from another university may be given credit towards a degree for acceptable previous courses, but the annual GPA will be based only on courses taken at St. Thomas University.

2. *Grade Point Average: Part-Time Students*

For part-time students, the grade point average (GPA) used to determine academic standing is calculated on the basis of each 30 credit hours attempted, rather than the annual GPA calculated for full-time students.

3. *Letter Grades*

A candidate's final standing in a course is indicated by the following letter grades:

Grade	Grade Point	Short Definition	Detailed Definition
A+	4.3	(Exceptionally) excellent	Demonstrating an exceptional knowledge of subject matter, the literature,
A	4.0	Excellent	

A-	3.7	(Nearly) excellent	and concepts and/or techniques. In addition, it may include: outstanding powers of analysis, criticism, articulation, and demonstrated originality. A performance qualitatively better than that expected of a student who does the assignment or course well.
B+	3.3	(Very) good	Demonstrating considerable knowledge of subject matter, concepts, techniques, as well as considerable ability to analyze, criticize, and articulate; performance in an assignment or course which can be called "well done."
B	3.0	Good	
B-	2.7	(Fairly) good	
C+	2.3	(Better than) adequate	Demonstrating a reasonable understanding of the subject matter, concepts, and techniques; performance in an assignment or course which, while not particularly good, is adequate to satisfy general University requirements and to indicate that the student has learned something useful.
C	2.0	Adequate, satisfactory	
C-	1.7	(Barely) adequate	
D	1.0	Minimally acceptable	Marginal performance, demonstrating a low level of understanding and ability in an assignment or course; less than adequate to satisfy general University requirements, but sufficient to earn a credit.
F	0.0	Unacceptable	Wholly below University requirements.
WF		Withdrawn with failure	Failing grade awarded to student who withdraws from a course after the deadline.

4. *Incomplete Grade*

An incomplete (INC) is a temporary notation and as such will not remain on the student's academic record beyond the date set for completion of the course work. Since academic decisions concerning such matters as scholarships and academic standing are made within a reasonable time after the end of term, it is necessary that final grades be recorded on the student's academic records prior to those decisions being made.

Students are expected to complete all course work by the deadlines prescribed by the in-

structor. There may be special circumstances (e.g. a serious illness of the student or the death of a close relative) in which the instructor has agreed to allow late work to be submitted by the student. In these approved cases, the instructor will submit a temporary notation of INC in place of a final grade.

In all cases where the temporary notation of INC has been submitted, the incomplete or late work must be completed by the student by the following deadlines:

First semester courses	February 1
Second semester and full courses	June 1
Intersession (May-June) courses	August 1
Summer School (July-August)	October 1
Special schedule courses	No later than one month after the completion of the course

Within one month of the above dates, the instructor must submit a final grade in place of the temporary notation of INC. Unless the final grade is submitted by these deadlines, the Registrar's Office will record a grade of F in place of the INC. This F will have a 0 grade point and will be used in computing the student's G.P.A. Beyond these deadlines, the Registrar's Office will not accept or record any grade changes (other than those due to appeals or errors).

If there are exceptional circumstances, the student may petition for an exemption by following the procedures outlined in the calendar under Section G. Appeal Procedures.

Electronic devices such as laptops, cell phones and blackberries shall not be taken into examination rooms except in special cases with the prior permission of the instructor. Instructors who invigilate examinations shall ensure that all unused examination booklets are removed from examination rooms and securely stored.

C. Academic Standing

The annual grade point average (GPA) of students determines their academic standing. There are four types of academic standing: good standing, academic probation, deferred dismissal and academic dismissal.

1. *Good Academic Standing*

In order to maintain good academic standing full-time students must earn a minimum annual GPA of 2.0 in each year of their program. Part-time students must earn a minimum GPA of 2.0 on each block of 30 credit hours attempted.

2. *Academic Probation*

Academic probation follows upon notice of unsatisfactory academic performance and is a warning to the student that improvement is required in order to avoid academic dismissal. Students placed on academic probation shall have their participation in extracurricular university activities restricted in such a manner as the Registrar may determine. A student whose annual GPA falls below 2.0 but above 1.5 is placed on academic probation. A student who has been placed on academic probation and whose annual GPA in any subsequent year falls below 2.0 will be required to withdraw from the University.

3. *Deferred Dismissal Policy*

i. Categories of Students to Whom Deferred Dismissal Applies

1. Students in good academic standing in the previous academic year who have

attempted between 18-30 credit hours, and whose current annual grade point average is 1.0 through 1.5 inclusive, will be placed on deferred dismissal.

2. Students on academic probation during the current academic year who have attempted between 18-30 credit hours, and whose annual grade point average is 1.8 or 1.9, will be placed on deferred dismissal.

ii. Requirements for Deferred Dismissal

1. Course load in the first semester will be limited to a maximum of 12 credit hours.
2. A remedial course, University Studies 1010 (UNST 1010), will be required in the first semester. Students will be graded on a Pass/Fail basis. The course will not be counted toward the 120 credit-hour requirement for the Bachelor of Arts degree. Attendance in this course will be mandatory.

iii. Requirements to Proceed into Second Semester

1. Students who have achieved a grade point average of 2.5 or above in their first-semester courses, and a Pass in UNST 1010, will not be required to take the second-semester remedial course, UNST 1020. Instead, they may take a maximum of 15ch in the second semester.
2. Students who have achieved a grade point average of 2.0-2.4 inclusive in their first-semester courses, and a Pass in UNST 1010, will be permitted to continue to second semester. Course load will be limited to 12 credit hours. Students will also be required to take the second-semester remedial course, UNST 1020. Students will be graded on a Pass/Fail basis. The course will not be counted toward the 120 credit-hour requirement for the Bachelor of Arts degree. Attendance in this course will be mandatory.
3. Students who have achieved a grade point average of less than 2.0 in their first-semester courses, or who have received a Fail in UNST 1010, will be required to withdraw from the University for a period of 12 months.

iv. Requirements for Proceeding to the Bachelor of Arts Program

Students who have achieved an annual grade point average of 2.0 or above and who have received a Pass in UNST 1020 may proceed to the Bachelor of Arts Program.

Deferred Dismissal is a one-time opportunity. Students whose annual grade point average falls below 1.6 in any subsequent year will be required to withdraw from the University for a period of 12 months.

4. *Academic Dismissal*

There are two circumstances in which students may be required to withdraw from the University because of unsatisfactory academic performance:

- a. A student whose annual GPA falls below 1.0 in any year will be required to withdraw from the University.
- b. A student who has been placed on academic probation and whose annual GPA in any subsequent year falls below 2.0 will be required to withdraw from the University. A student who is required to withdraw from the University is eligible to apply for readmission subject to the regulations below.

5. *Application for Readmission*

Students required to withdraw from the University as a result of obtaining an annual GPA

of less than 1.0 will be required to spend at least one year away from the University before being eligible to apply for readmission. Students who had been on academic probation and were required to withdraw from the University as a result of their annual GPA falling below 2.0 in a subsequent year, will normally be required to spend at least one year away from the University before being eligible to apply for readmission. Any student who has been required to withdraw a second time will normally be required to spend at least two years away from the University before being eligible to apply for readmission.

Students who seek readmission after having been asked to withdraw must apply in writing to the Admissions Office. Such applications are subject to the guidelines of the Senate Admissions and Academic Standing Committee. In cases of readmission, special conditions for entry, course load and GPA performance may be required. Students who have been required to withdraw from the University will not be granted credit for any courses taken while required to be away from the University.

D. Codes of Student Conduct (Academic Misconduct - Excerpt)

Preamble

St. Thomas University has two Codes of Student Conduct — one covers academic affairs and the other non-academic issues. You can find the policy on non-academic misconduct at www.stu.ca/student_policies. The purpose of these Codes is to express community standards of honesty, respect for persons and property, and responsible use of freedom. The Codes reflect the University's mission and identity, and exist to guide conduct, safeguarding, and promoting the University's educational activity. Each student is responsible for reading and reviewing both Codes of Student Conduct, and for understanding the responsibilities they assumed by enrolling in the University.

St. Thomas University students are held responsible for their conduct at all times. Any student who engages in *academic* or *non-academic* misconduct shall be subject to disciplinary action by appropriate officers of the University.

The following considerations constitute the foundation of the University's justification for establishing expectations of student conduct, codifying those expectations, and adopting equitable processes for assessing student conduct.

1. The University's mission establishes its identity as an independent academic community with a distinctive history and culture.
2. The University's standards of conduct and the procedures for determining responsibility for academic and non-academic misconduct reflect its particular mission and history. These standards and procedures do not attempt to duplicate civil and criminal legal processes, nor do they attempt to substitute for them. As an institution structured to accomplish its stated educational mission, the University has an independent interest in upholding standards of academic and non-academic conduct, and these expectations may differ from those found in society at large. The University is committed to the fundamental principles of natural justice in its student conduct procedures.
3. By registering at St. Thomas University, students voluntarily enter an educational and residential community with standards of academic honesty and respect for persons and

property. In choosing to enroll in the University, each student becomes responsible in their conduct to those standards as stated in the Student Codes of Conduct.

The University may address student academic and non-academic misconduct through its own processes and apply sanctions governing the terms of membership in the University. The University reserves the right to deal with misconduct, whether or not law enforcement agencies are involved and whether or not criminal charges may be pending.

SECTION I - ACADEMIC MISCONDUCT

Intellectual honesty is fundamental to scholarship. Academic dishonesty, in whatever form, diminishes the integrity of education at the University. Accordingly, the University views plagiarism or cheating of any kind in academic work as among the most serious offenses that a student can commit. Such conduct is subject to disciplinary action.

1. Plagiarism

Plagiarism is “to use another person’s ideas or expressions in your writing [or any other format or medium] without acknowledging the source” (*The Modern Language Association Handbook for Writers of Research Papers*, J. Gibaldi, 1999, p. 30).

Some examples of plagiarism are:

1. Presenting another person’s ideas, words, or other intellectual property, including material found on the Internet, as one’s own.
2. Using passages from printed articles and books or online sources such as Wikipedia without providing full bibliographical information. For online sources, bibliographical information includes the title, author and URL of the webpage.
3. Writing an essay or report, or producing an assignment in any format or medium, or a portion thereof, for someone else to submit as their own work.
4. Submitting an essay, report, or assignment when a major portion has been previously submitted or is being submitted for another course at St. Thomas or any other university without the express permission of both instructors.
5. Submitting work that is expected to be the student’s yet, was contracted and/or obtained from another person or entity.

A student who is in doubt as to what constitutes plagiarism should discuss the matter with the professor concerned *before* submitting the assignment or sharing the material with others.

2. Cheating

During an examination, test, or any other written assignment used to judge student performance, the following actions are examples of cheating:

1. The use of unauthorized material such as books, notes, or electronic devices.
2. Obtaining by improper means examinations, tests, or similar materials.
3. Using or distributing to others examinations, tests, or similar materials obtained by improper means. This includes any image of a quiz, examination or any other assignment

photographed or captured from a computer screen and circulated by any means including social media.

4. Discussing with another student tests or examination questions that have been obtained by improper means.
5. Either writing a test or examination for another student or having another student write a test or examination. This includes any such action performed through electronic devices used as part of a remote course delivery.
6. Either using answers provided by another student or providing answers to another student.
7. Copying by any means answers from another student during examinations or tests.

3. Misuse or Misrepresentation of Course Content

University courses often deal with challenging material that can be fully understood and appreciated only within the context of a respectful and rigorous academic discourse. When taken out of a proper academic context, such material might be misinterpreted and trigger misguided reactions emerging from a misunderstanding of the dialectical functions and conceptual goals of scholarly debate.

For this reason, students are not allowed to record and/or circulate any course material produced by an instructor, other students or other course participants and disseminate this information through any means, including social media, to peers or the general public without the instructor's explicit permission. This includes any audio or video recording of a lecture, or any image of a PowerPoint slide photographed in class or captured from a computer screen, and circulated by any means, including social media. Audio and/or video recordings of classes are to be used for course purposes only.

The content provided in class or online by instructors is subject to copyright and cannot be shared without the explicit permission of the instructor. Other copyright owners may include other faculty members who have taught other sections of the course, textbook publishers, multimedia vendor etc.

Procedures in Cases of Cheating, Plagiarism, or Misuse/Misrepresentation of Course Content

1. As soon as a professor believes that academic misconduct has occurred, the professor will contact the student via email, with a copy to the Registrar's Office. In the email, the professor will:
 - state the problem;
 - ask for a meeting with the student;
 - specify that a response is required within 7 days;
 - state that if the student has not replied within 7 days, then an admission of guilt will be presumed and a penalty will be imposed.

Note: The professor will keep a copy of the email, and the Registrar's Office will place a copy in the student's academic file.

2. At the meeting between the professor and the student, the professor will:
 - present the evidence of misconduct, and the student may respond;
 - ask the student to complete and sign the Student Statement on Academic Mis

conduct form, which is available on the STU website at http://w3.stu.ca/stu/administrative/vp_academic/academic_misconduct.pdf (Administrative Offices >> Vice-President Academic & Research > >Policies >> Academic Misconduct; scroll to Appendix B).

3. Within 7 days after meeting with the student, the professor will:
 - discuss the matter with the Department Chair, and they will decide on a course based penalty (up to and including a failing grade in the course);
 - submit evidence of academic misconduct to the Department Chair;
 - submit the completed Student Statement on Academic Misconduct form to the Department Chair.
4. Within 7 days of meeting with the professor, the Department Chair will:
 - inform the student in writing of the decision (regarding guilt or innocence) and penalty, and also of the right to appeal the decision (and/or penalty) to the Senate Student Academic Grievance Committee;
 - indicate in the letter to the student that appeals must be initiated within 2 months from the date the letter was sent;
 - submit a copy of the letter to the Registrar's office for inclusion in the student's academic file;
 - submit a copy of the completed Student Statement on Academic Misconduct form to the Registrar's office for inclusion in the student's academic file;
 - submit copies of all evidence of academic misconduct for inclusion in the student's academic file;
 - contact the Registrar's office to ascertain whether a previous offense has occurred.
5. If a previous instance of academic misconduct has occurred, then:
 - the Department Chair will notify the Vice-President (Academic & Research) in writing;
 - the Vice-President (Academic & Research) may impose a University-based sanction up to and including expulsion, which would be in addition to the penalty imposed by the professor and Department Chair;
 - the Vice-President (Academic & Research) will notify the student in writing, with a copy of the letter sent to the Registrar's office for inclusion in the student's academic file.
6. If a student submits an appeal, the Senate Student Academic Grievance Committee shall:
 - solicit and consider relevant material from the student, the Department Chair, the Professor, the Registrar's office, and other material as deemed necessary;
 - reach a decision concerning the appeal of the decision or the penalty imposed;
 - communicate its decision in writing to the Vice-President (Academic & Research), Department Chair, the professor, the student, and the Registrar's office for inclusion in the student's academic file.

Note: The decision of the Senate Student Academic Grievance Committee shall be final.

7. In all cases of alleged academic misconduct or academic grievance concerning the Department Chair, the Vice-President (Academic & Research) shall appoint an individual to act as Department Chair under these procedures.

E. Withdrawal From University

Students who choose to withdraw officially from University should contact the Registrar's Office. The student will be assisted in notifying the various offices of the University, including Residence, Financial Services, and the professors. The effective date of withdrawal is the date on which the Registrar accepts the withdrawal. A student who withdraws may be entitled to a partial refund of tuition fees.

F. Academic Appeal Procedures

In any academic appeal procedure, the University is committed to the principles of natural justice. The officers and committees of the University will hear the appeal in a fair and impartial manner, with due respect for the parties' rights and sensitivities. There are two Senate committees that deal with student appeals: the Senate Admissions and Academic Standing Committee and the Senate Student Academic Grievance Committee. The Senate Admissions and Academic Standing Committee decides appeals related to admissions; academic standing; and academic regulations of the University. The Senate Student Academic Grievance Committee decides appeals related to academic misconduct; final grades; and all other academic matters. Students who wish to appeal may do so by submitting a written appeal care of the Admissions Office (for appeals related to admission) or the Registrar's Office (for all other academic appeals) to the appropriate committee. Appeal procedures are described below.

Appeal of Admission Decisions

The evaluation of the various documents and the decision concerning the acceptance of an applicant for admission rests with the Admissions Office. An appeal of that decision may be submitted care of the Admissions Office to the Senate Admissions and Academic Standing Committee. For more detailed information about the appeal procedure, students may contact the University Admissions Office.

Appeal of Academic Dismissal

Students who wish to appeal their academic dismissal from the University may do so by submitting a written appeal care of the Registrar to the Senate Admissions and Academic Standing Committee. Appeals should be based on substantial medical or compassionate reasons with supporting documentation, if applicable. For more detailed information about the appeal procedure, students may contact the Registrar's Office.

Appeal to be Re-admitted to the University after Academic Dismissal

Students who seek readmission after having been asked to withdraw must apply in writing to the Admissions Office. Such applications are subject to the guidelines of the Senate Admissions and Academic Standing Committee. In cases of readmission, special conditions for entry, course load and GPA performance may be required. Students who have been required to withdraw from the University will not be granted credit for any courses taken while required to be away from the University. For more detailed information about the appeal procedure, students may contact the Admissions Office.

Appeal for Exemptions to Academic Regulations

Any petitions from students who seek exemption from the academic regulations of the University are to be submitted to the Registrar's Office. The Senate Admissions and Academic Standing Committee advises the Registrar's Office on these petitions. Students seeking an

exemption for substantial medical or compassionate reasons will be required to provide supporting documentation, if applicable. For more detailed information about the appeal procedure, students may contact the Registrar's Office.

Appeal of Final Grade in Course

A student may apply for a review of the final grade in any course, as follows:

1. The student shall apply in writing to the Registrar's Office no later than two months after receipt of the final grade;
2. The Registrar's Office shall ask the professor to review the final grade. The review shall involve the final examination, if any, and the student's class record, wherever possible;
3. If the student chooses to appeal the professor's review of the final grade, the Registrar's Office shall submit the matter to the Chair of the Department. This review will involve consultation with the professor, if available, and may involve consultation with other professor(s) appointed by the Chair (**Note: when the appeal concerns the Chair, the Dean shall act as Chair**);
4. If the student chooses to appeal the Chair's review, the matter shall be referred to the Senate Student Academic Grievance Committee which will review all its aspects; the decision of the Committee will be final.

Other Academic Appeals (not covered above)

The normal sequence of procedures for students to follow in an academic appeal of matters not described above is:

1. to discuss the matter with the professor concerned (if any); if no satisfactory agreement is reached;
2. to discuss the matter with the Chair of the Department concerned (if any); if no solution is reached,
3. to appeal to the Senate Student Academic Grievance Committee which will review the matter in all its aspects; the decision of the Committee will be final.

Note: Appeal procedures related to Academic Misconduct are described in Section 7D.

G. Scholarship Renewal for Study Abroad

Scholarship Renewal Policy for Students Participating in a St. Thomas University Exchange Program

Students who study at another university as a participant in an official St. Thomas University exchange program, while paying tuition fees to St. Thomas University, may hold their renewable scholarships during the exchange program study period, provided they have met all the normal requirements for scholarship renewal.

Students who successfully complete 24 credit hours during the academic year in which they are on exchange will be considered, by the Registrar's Office, for the renewal of their scholarships. The decision to renew the scholarship will be based on course-work taken during the academic year (September to April) in which the exchange program study period took place. Students who complete fewer than 24 credit hours during their exchange program year of study are not eligible for renewal of their scholarships. *Note: The annual grade point average is calculated on the total number of credit hours taken during the academic year, not the best 24 credit hours.*

Scholarship Renewal Policy for Students Participating in an External International Study Opportunity

Students who choose to pursue an international study opportunity while paying fees to another institution will be ineligible to hold their renewable scholarships during the period in which they study abroad. On return to St. Thomas, students may apply to the Registrar's Office for the reinstatement of their scholarships as follows:

- (a) If students have been away from the university for a full academic year (September to April), their eligibility for scholarship reinstatement will be considered based on course work (minimum of 24 credit hours) completed during the academic year prior to the study abroad year.
- (b) If students have studied abroad for one term (September to December or January to April) during an academic year, their eligibility for scholarship reinstatement will be considered based on their grade point average on the most recent 24 credit hours completed at St. Thomas.

Students who seek exemption from these regulations may appeal, in writing, to the Senate Admissions and Academic Standing Committee.

H. Student Accessibility Services Policy

From our Mission...

We are united in the belief that people of divergent backgrounds and abilities should have an opportunity to learn and practice critical thought and to realize their intellectual potential in an academic setting that is both responsive and stimulating. We believe that learning engages the whole person; we seek to provide an environment conducive to enriching student life.

...To Our Commitment

St. Thomas University is committed to creating an equitable environment by ensuring that all members of our community have access to the full range of university life. This means supporting students with disabilities in their full participation in the educational, social and cultural life of our university. Sharing responsibility with each student for their success, our accessibility program is consistent with our academic standards as we strive to make reasonable and appropriate accommodations to allow students to enjoy the benefits of higher education.

'Disabilities' shall be defined as those conditions so designated under the New Brunswick Human Rights act and will include physical, medical, learning, and psychiatric disabilities.

1) Mission Statement of Student Accessibility Services (SAS)

St. Thomas University is mandated by law and the aspirations of our community to provide an educational environment that:

- demonstrates professionalism and academic integrity
- values diversity
- respects learning

2) Introduction and Guiding Policies

This policy has been written in accordance with the *Canadian Charter of Rights and Freedoms* (1982) and the *New Brunswick Human Rights Code* (1992)

Canadian Charter of Rights and Freedoms (1982), Section 15 (1)

Section 15 (1) Guarantee of Rights and Freedoms

Every individual is equal before and under the law and has the right to the equal protection and equal benefit of the law without discrimination and, in particular, without discrimination based on race, national or ethnic origin, colour, religion, sex, age or mental or physical disability.

15(2) Subsection (1) does not preclude any law, program or activity that has as its object the amelioration of conditions of disadvantaged individuals or groups including those that are disadvantaged because of race, national or ethnic origin, colour, religion, sex, age or mental or physical disability.

New Brunswick Human Rights Code (1992), Section 5 (1)

5(1) No person, directly or indirectly, alone or with another, by oneself or by the interposition of another, shall

- (a) deny to any person or class of persons any accommodation, services or facilities available to the public, or
- (b) discriminate against any person or class of persons with respect to any accommodation, services or facilities available to the public, because of race, color, religion, national origin, ancestry, place of origin, age, physical disability, mental disability, marital status, sexual orientation, sex, social condition, political belief or activity.

3) Accessing Accommodations through Disability Services

Students with documented disabilities that interfere with their ability to participate in and benefit from the University's educational services may obtain assistance from Student Accessibility Services.

3.1) Documented Disabilities

Disabilities must be supported by documentation no older than 5 years, from a licensed health or mental health professional that is deemed qualified to diagnose the disability.

Prior to receiving assistance, students must provide documentation that:

- validates a disability
- outlines the student's cognitive and/or physical restrictions
- recommendations for appropriate accommodations

Documentation and identification may come from a variety of licensed health professionals including:

- Physicians
- Medical specialists
- Psychologists
- Psychiatrists
- Speech/language pathologists
- Audiologists

3.2) i-Reasonable and Appropriate Accommodations

The purpose of academic accommodations is to reduce the barriers to education.

Accommodations do not modify the University's academic standards, nor do they alter the core requirements of the program.

The accommodation process is a shared responsibility that requires the student and the Manager of Accessibility Services to work together to reach appropriate and reasonable accommodations. When determining the suitability of an accommodation, the following factors are taken into account:

- is the accommodation related to the disability?
- does the student require the accommodation to participate in education at the university?
- can the accommodation be provided without undue hardship?

Accessibility Services cannot guarantee accommodations to students who make requests after the deadlines stated in the procedural manual for Student Accessibility Services.¹

3.2) *ii-Temporary Accommodations*

Students may register with Student Accessibility Services to receive accommodations for a temporary disability. Documentation supporting the need for temporary accommodations must come from a licensed health or mental health professional and include information pertaining to the duration of the disability. Students requiring temporary accommodations will be required to return to the SAS each semester to provide updated documentation and to have their accommodations reviewed and reinstated.

3.3) *Accommodations Agreements*

- 3.3)i Students and professors shall wherever possible agree to the appropriate accommodations.
- 3.3)ii In cases where the instructor and the student cannot agree about the provision of accommodations, the instructor shall meet and discuss the recommended accommodations with an advisor from Student Accessibility Services. If they are unable to reach an agreement, the appropriate Dean shall be consulted.
- 3.3)iii Students receiving academic accommodations are required to follow all procedures as contained in the SAS procedural manual.¹

3.4) *Disclosure/Non-Disclosure of Disability*

The University has no responsibility to provide accommodations for students who do not disclose their disabilities to Student Accessibility Services. Students who disclose their disability after the stated deadlines of University Policy may not claim retroactive accommodations.

3.5) *Confidentiality*

All agents involved at St. Thomas University (i.e. faculty, staff, students as well as students employed as tutors and/or note takers) must treat all information pertaining to a student as confidential. The exceptions to this policy are:

- when an individual becomes aware of current children at risk of abuse
- when an individual clearly presents danger to self or others
- when we are subpoenaed for records or testimony by the courts

If a breach of confidentiality occurs then the individual is subject to disciplinary action.

Consent Forms

Consent forms must be signed by the students to disclose any information to any University staff and/or outside parties (such as family members or other individuals). Consent forms are available at Student Accessibility Services.

A. Scholarships, Awards, Bursaries and Prizes . . .	401
B. Loans	440
C. Dean's List	441
D. University Medal	441

A. Scholarships

St. Thomas University recognizes academic excellence through a generous scholarship program. The university offers a wide range of entrance awards to highly qualified students admitted on the basis of their high school records, as well as numerous scholarships-in-course to continuing students who have achieved academic distinction at St. Thomas.

Entrance Scholarships

The Entrance Scholarship program is competitive and is designed to attract outstanding scholars to the St. Thomas University campus. Except when otherwise specified, the entrance awards are open to candidates for full-time admission to the first year of the Bachelor of Arts program who are applying on the basis of their high school records.

1. Selection Criteria

In selecting entrance scholarship recipients, the primary criterion considered by the Entrance Scholarship Selection Committee is the academic record. The Committee reviews the following:

- admission average
- Grade 12 program: courses and levels
- rank in graduating class
- program and performance in grade 11

Note: The admission average is calculated on the senior-level academic English grade and the grades on four other Grade 12 academic courses drawn from our list of approved admissions subjects. For details, please consult Section One, Admissions and Registration. At mid-year, the admission averages for scholarship purposes is calculated on the overall average of final grades on Grade 11 academic subjects, as well as final first-semester results or mid-year results (for nonsemestered schools) on Grade 12 academic subjects.

Other factors considered include:

- a reference letter from a teacher, principal or guidance counsellor

In addition to the academic selection criteria, the following criteria are considered in awarding some entrance scholarships:

- leadership qualities
- extracurricular activities
- financial status

2. Application Procedure

Candidates for full-time admission to the BA program at St. Thomas University who maintain an admission average of 80% or higher must submit a completed scholarship application to the Admissions Office to be considered for all entrance scholarships. Application materials

submitted to the Admissions Office will also be reviewed by the Entrance Scholarship Selection Committee.

3. Application Deadline

The application deadline for all entrance scholarships is March 1 and scholarship offers are announced by April 15. Recipients have until May 15 to confirm acceptance of scholarships by submitting a \$100 advance payment on tuition. Scholarship applications received after the March 1 deadline are reviewed on an individual basis and scholarships may be offered, conditional on the availability of awards.

4. Renewal Criteria

Students may hold a renewable scholarship for a maximum of four academic years (September to April).

Recipients of renewable scholarships must maintain the required annual grade point average (see individual scholarship descriptions) on a minimum of 24 credit hours of course work taken during the academic year (September to April). Note: the annual grade point average is calculated on the total number of credit hours taken during the academic year, not the best 24 credit hours.

Please note that the normal full-time course load is 30 credit hours per academic year to complete the 120 credit hour degree program in four years. Students who choose to take fewer than 30 credit hours per year will have to make up the shortfall in credit hours in a subsequent term (e.g., Intersession/Summer session, course overload in a later year, or extension of the degree beyond four years). Scholarship students are responsible for all costs associated with any courses taken outside of the normal academic year (September to April) or beyond four years.

Recipients of a St. Thomas Renewable Entrance Scholarship who are not eligible for renewal of this award may apply in writing to the Registrar's Office for renewal in any subsequent year in which they obtain a minimum annual grade point average of 3.7 on a minimum of 24 credit hours of course work taken during the academic year (September to April). *Note: the annual grade point average is calculated on the total number of credit hours taken during the academic year, not the best 24 credit hours.*

I. Entrance Scholarships, Awards and Bursaries

St. Thomas offers an Entrance Award Program that includes scholarships for high academic achievement, bursaries for students who have a demonstrated financial need, and other awards for students balancing academic performance with extra-curricular, volunteer, or community achievements.

Except when otherwise specified, entrance awards are open to candidates for full-time admission to the first year of the Bachelor of Arts Program who are applying on the basis of their high school records.

Unless otherwise indicated, the deadline for entrance scholarship and bursary applications is March 1st. To apply, complete the Scholarship and Bursary Application Forms on your applicant portal. Note that additional application materials may be required.
