## **HOW TO OBTAIN A FAMILY PHYSICIAN**

The best point of contact to find a doctor is through the government's waiting list for people without family doctors. This list is called Patient Connect NB, and people waiting will be assigned to a doctor on a first-come, first-serve basis. Please call Tele-Care at 811 or visit their website at <http://www.gnb.ca/0217/registry-e.asp> to have your name added to this list.
